"Based on Star trek created by Gene Roddenberry and Star trek: Voyager created by Rick Berman & Michael Piller & Jeri Taylor." An original novel set in the universe of Star Trek: Voyager—and the sequel to the New York Times bestseller Protectors! Admiral Kathryn Janeway has now taken command of the Full Circle Fleet. Her first mission: return to the Delta Quadrant and open diplomatic relations with the Confederacy of the Worlds of the First Quadrant, a civilization whose power rivals that of the Federation. Captain Chakotay knows that his choices could derail the potential alliance. While grateful to the Confederacy Interstellar Fleet for rescuing the Federation starships from an alien armada, Voyager's captain cannot forget the horrors upon which the Confederacy was founded. More troubling, it appears that several of Voyager's old adversaries have formed a separate and unlikely pact that is determined to bring down the Confederacy at all costs. Sins of the past haunt the crew members of the Full Circle Fleet as they attempt to chart a course for the future. Will they learn much too late that some sins can never be forgiven...or forgotten? ™, ®, & © 2014 CBS Studios, Inc. STAR TREK and related marks are trademarks of CBS Studios, Inc. As the Cosmos Unravels The disruption in the space-time continuum caused by the creation of the "Blue Eye" singularity continues: Thread by thread, the fabric slowly frays and peels away, breaking down barriers between dimensions. As the lines between realities blur, the consequences cascade. A Sleeping City Awakes Voyager pursues Tuvok to a long-dormant space station, a place of astonishing grandeur and wonder. Ancient almost beyond imagining, the city seduces the crew with the promise that their greatest aspirations might be realized. Such promise requires sacrifice, however, and the price of fulfilling them will be high for Voyager. A Mysterious Power Stirs Unseen sentries, alarmed by Voyager's meddling in the Monoharan system, send emissaries to ascertain Janeway's intentions. Unbeknownst to the captain, she is being tested and must persuade her evaluators that their contention -- that Voyager poses a threat to the delicate web of cosmic ecology -- is baseless. And failure to vindicate her choices will bring certain retribution to her crew.

Stephen knew that something bad had happened. After all, he'd been there, hadn't he, he'd been a part of it. But how bad it was he could never be sure. Everything seemed to conspire against his knowing. A decade later, as a young man, an unexpected

opportunity to discover the truth presents itself. Only, is it the truth he wants to discover? This speculative adventure threads its way dramatically across three episodes of twentieth century cultural upheaval, through the struggle and aftermath of the first and second world wars to the social revolution of the 1960s.

A Pocketful of Pearls is a book of priceless inspirational messages for relaxation and enjoyment. "Pearls" are a helpful tool to help recognize, change, and/or eliminate unwanted things in your life, things that have been keeping you from your desired goals and from the life you were created to live. God is constantly talking with us; however, with our busy life situations, we don't stop to listen. I listened. And God gave me A Pocketful of Pearls. As a result of many conversations with God in my quiet time, A Pocketful of Pearls was born. Through reflections, overcomings, and revelations received, I improved my perception of life and my place in it. This book is for those that want to live life in a state of joyful praise, peace, and harmony. The truth I found helped me, and I have to share it with you. The messages (pearls) came as a result of life situations and learning moments I now share through messages of strength, faith, happiness, love, fun, empathy, and praise and social situations, poems, and stories, as well as other revelations. Through these various messages, it is my hope, or rather my prayer, that these "pearls" uplift, inspire, and encourage someone; and then I would have accomplished my goal. 1

There is a cost, a cost in lives lost, in the years you may spend behind bars. I do not know why I was so lucky to still be alive, or not locked up for the rest of my life, or in a state mental hospital. I attribute it to pure dumb LUCK! During my career I have flown all over the world, so have sat for ages in airports waiting for the damn planes to arrive or depart. It was during these useless, yet precious hours, that I began writing my short stories: in *Gullible's Travels* I describe some of my misadventures. Some stories are unashamedly chick lit, while others are more worldly. A few are personal and true, while some are deliberately condensed within a 60 or 100 word limit. In one story I write as a child to describe events during WWII: I have also included one children's story. The surprising details of Shakespeare's bequests in *Will* are totally accurate. In *Eyes of Hope* I describe the emotions of a girl of Turkish and Greek Cypriot origin during and after the Turkish Invasion of 1974. I wrote *Koala Country* on my way home from Australia while another story describes the feelings of a frustrated and jealous colleague of Bridget Jones. Like conspiracy theories? *The Death of Napoleon* contends he was murdered.

When she became pregnant, he disappeared, and she gave up her baby for adoption. Five years ago, Caroline, a dedicated pathologist, reluctantly adopted a baby to please her husband. She prayed her misgivings would disappear; instead, she's questioning whether she's cut out for the role of wife and mother. Five years ago, Juliette considered her life ideal: she had a solid marriage, two beautiful young sons, and a thriving business. Then she discovered Nathan's affair. He promised he'd never stray again, and she trusted him. But when Juliette intercepts a letter to her husband from Tia that contains pictures of a child with a deep resemblance to her husband, her world crumbles once more. consequences that none of them could have predicted. Riveting and arresting, *The Comfort of Lies* explores the collateral damage of infidelity and the dark, private struggles many of us experience but rarely reveal.

“YOU WERE TOLD NOT TO RETURN TO OUR SPACE.” Little is known about the Children of the Storm—one of the most unique and potentially dangerous species the Federation has ever encountered. Now in its current mission to the Delta Quadrant, Captain Chakotay and Fleet Commander Afsarah Eden must unravel why three Federation starships—the U.S.S. Quirinal, Planck, and Demeter—have suddenly been targeted without provocation and with extreme prejudice by the powerful Children of the Storm . . . with thousands of Starfleet lives at stake from an enemy that the Federation can only begin to comprehend. . . .

An original novel set in the universe of *Star Trek: Voyager*, from the New York Times bestselling author! As the Federation Starship *Voyager* continues to lead the Full Circle Fleet in its exploration of the Delta Quadrant, Admiral Kathryn Janeway remains concerned about the Krenim Imperium and its ability to rewrite time to suit its whims. At Captain Chakotay's suggestion, however, she orders the fleet to focus its attention on a unique planet in a binary system, where a new element has been discovered. Several biospheres exist on this otherwise uninhabitable world, each containing different atmospheres and features that argue other sentient beings once resided on the surface. Janeway hopes that digging into an old-fashioned scientific mystery will lift the crews' morale, but she soon realizes that the secrets buried on this world may be part of a much larger puzzle—one that points to the existence of a species whose

power to reshape the galaxy might dwarf that of the Krenim. Meanwhile, Lieutenants Nancy Conlon and Harry Kim continue to struggle with the choices related to Conlon's degenerative condition. Given the trauma she has recently endured, Admiral Akaar, Starfleet's commander in chief, is questioning Janeway's fitness to command the fleet. A collection of freeform verse, sort of like poetry, by C.R. Asher.

"Childhood can be rough. But for Kenzie growing up in the Lowe home means opening the bottom drawer of her father's dresser to choose which of the three belts coiled, waiting like snakes, she wants to get whipped with; trips to Beehive Liquors for her father's vodka; and dreaming of the day she can escape apartment 5A. She goes to school, she holds odd jobs, and develops her own craving for the bottle. Twenty years have passed and it's now the nineties but not everything has changed for Kenzie. She is still haunted by her childhood, and learning that her father is dying she is shocked by her own desire to be with him during his final hours."--Jacket.
