Moses, what the laws did was to reveal sin so God can be proven right that man needed saving and man on the other hand could not make any excuse for their sins. To save man from hell, the debt that was owed to God had to be paid and paid in full. Man had to die. So, how can God save man and kill him at the same time? Jesus the Son of God became our substitute, the plan God had was to use His Son as the scape goat where Jesus would take all of our sins upon Himself go to the cross and die on our behalf. Through baptism we join Christ in His death and through His resurrection we achieve new life. What that does is set us free from the law and placed us under grace. So, in the end we are saved by grace. Rohan Brooks is a former lecturer of Sociology and a former Sunday school teacher. Holds a master's degree in Applied Sociology. In this new work, McMahon takes the reader through the first 11 chapters of Genesis explaining in practical terms the important aspects of each section by way of commentary, doctrine and practical application. McMahon's biblical perspective on this practical guide stems from historical theology, and the unified practice and belief of the historic Christian church. His position is that the first eleven chapters of Genesis is an historical narrative. This narrative of primeval beginnings, or Genesis, holds the basis for most of humankind's questions concerning the meaning of life.

Primeval history in these chapters answers questions like: Where did the universe come from? Is there a God? What was God doing before the universe was created? What is God like? Why did God create anything? What is God's plan for the world? Did God really create the universe in six days? Who were the first people? Why do we die? What is temptation? What is sin? How does understanding original sin impact our view of the Bible? How can we have a right relationship with God? What is a covenant and why did God make covenants with certain people? Why did God destroy the primeval world with a flood? Where did the nations come from? And many more... There are literally hundreds of questions that could be posed from the first 11 chapters of the book of Genesis. What do you know about primeval history? What would you like to know? Whatever your question is about the early history of the world, from a biblical perspective, this work will help you understand these first 11 chapters of Genesis and God's plan for the ages thereafter.
