"The Jungle Book" is a collection of stories and fables, using animals in an anthropomorphic manner to give moral lessons. The verses of The Law of the Jungle, for example, lay down rules for the safety of individuals, families and communities. The best-known of them are the three stories revolving around the adventures of an abandoned "man cub" Mowgli who is raised by wolves in the Indian jungle. The most famous of the other four stories are probably Rikki-Tikki-Tavi and Toomai of the Elephants. "The Second Jungle Book" is a sequel which features five stories about Mowgli and three unrelated stories, all but one set in India, most of which Kipling wrote while living in Vermont. "The Man Who Would Be King" is a novella about two British adventurers in British India who become kings of Kafiristan, a remote part of Afghanistan. The story was inspired by the exploits of James Brooke, an Englishman who became the first White Rajah of Sarawak in Borneo. "Kim" is an adventure novel about the orphaned son of an Irish soldier and a poor Irish mother who have both died in poverty. Living a vagabond existence in India under British rule in the late 19th century, Kim earns his living by begging and running small errands on the streets of Lahore. "The Just So Stories" are a highly fantasized origin stories, especially for differences among animals, they are among Kipling's best known works. This volume explores the mutual influences between children's literature and the avant-garde. Olson places particular focus on fin-de-siècle Paris, where the Avant-garde was not unified in thought and there was room for modernism to overlap with children's literature and culture in the Golden Age. The ideas explored by artists such as Florence Upton, Henri Rousseau, Sir William Nicholson, Paula Modersohn-Becker, and Marc Chagall had been disseminated widely in cultural productions for children; their work, in turn, influenced children's culture. These artists turned to children's culture as a "new way of seeing," allied to a contemporary interest in international artistic styles. Children's culture also has strong ties to decadence and to the grotesque, the latter of which became a distinctively Modernist vision. This book visits the qualities of the era that were defined as uniquely childlike, the relation of childhood to high and low art, and the relation of children's literature to fin-de-siècle artistic trends. Topics of interest include the use of non-European figures (the Golliwogg), approaches to religion and pedagogy, to oppression and motherhood, to Nature in a post-Darwinian world, and to vision in art and life. Olson's unique focus covers new ground by concentrating not simply on children's literature, but on how childhood experiences and culture figure in art.
