A biochemist and an agronomist present the known facts - for the first time in one volume - about guar, an Old World legume. Guar is now grown in large quantities to produce guar gum, an important industrial water-soluble hydrocolloid. Guar seed has a high content of vegetable protein, and with genetic improvement, it could provide a valuable source of protein in the human diet; however, more research is required to make use of guar seed economically feasible. The guar plant has been cultivated in India and Pakistan for generations, and guar gum has been used in manufacturing in the United States and abroad since World War II. Today, guar gum is used as a friction-reducing agent in oil well drilling and mining operation; as a binding agent in the manufacturing of explosives; reconstituted tobacco, and sausage products; and as a thickener and stabilizer in cosmetics, processed cheese products, baked goods and icings, dressings and sauces, beverages, and canned meat products.

The textbook of the Padārtha Vijnāna and History of Ayurveda is an asset for the first year BAMS scholars as it brings to light the fundamentals of Ayurveda in a simple and easy to understand manner. The subject of Padārtha Vijnāna and History of Ayurveda is considered as the toughest subject for the scholars as proved by the results of the examinations conducted by various universities across India. Vijn?na and History of ?yurveda' exam bearing 200 marks. This book is based on the current syllabus for the Pad?rtha Vijn?na and History of ?yurveda and covers all the topics in a lucid manner with brevity of words. This is probably the first book of its kind which has been specially designed for the scholars who find it very difficult to crack the exam in this subject. The language used is free from grammatical errors and is best suited for all categories of ?yurveda scholars. The unique scientific description of the Pram?na, Pancamah?bhoota et al are forte of this book.

Verse work, with English translation and notes, on ayurveda system in Indic medicine.

' Sex is one of basic desire in animal kingdom. Every body should take care of own body , mind and soul. Food is very important. Ayurveda has used it as Rasayana/ rejuvenator of body and mind. Food and plants are used as aphrodisiacs meaning Vajikaran. This is very important branch of Ayurveda. Various sexual problems related to Males are described with remedies.

The importance of Purushartha Chatushtya is well known since time immemorial. It is always necessary that each individual is to be made oriented to fulfill the requirements to accomplish the goals for Purushartha Chatushtya and that is highly dependent upon the healthy status of every human being.<sup>1</sup> As it has been

enumerated that Ashraya of Vyadhi is Deha and Manas and both are illuminating about the Swastha Sharira. Again it has been advised that keeping everything aside, body is to be concentrated because in absence of body i.e. healthy body nothing there is absence of all bodily entities.<sup>2</sup> Hence, the primitive aim of Ayurveda is to maintain the normalcy of health which is followed by prevention of the disease

"Neurology is a quantitatively small corner of medicine that, increasingly, occupies a position of outsized importance and distinction in both the practice of medicine and in the health and well-being of society. The Decade of the Brain came into public awareness in 1990 as an initiative of president George W. Bush involving the NIH and NIMH "to enhance public awareness of the benefits to be derived from brain research"(1). In the intervening 20 years since 1999, we have seen significant increases in understanding the myriad of neurological diseases that confront society"--
