Ideal for native speakers and learners alike, this clear guide to the grammar of modern English will help students speak and write English with greater confidence.

The OPD Second Canadian Edition English/Chinese is an illustrated, theme-based dictionary for second-language learners. This four-colour dictionary defines words through pictures, and presents each new word in context. The OPD English/Chinese, along with the monolingual workbooks and many other components, can be used as a reference book or as text for high school or adult ESL students at the beginner level. For years, the first monolingual Canadian edition of the OPD has been the industry leader among picture dictionaries. The second edition expands on the topics covered, providing more depth of vocabulary in the areas that matter most to students and offers Chinese speakers the additional advantage of having words and phrases defined in their native language. The illustrations have been completely updated in a more realistic style that is visually appealing to adult learners. The second edition also contains two new features: Introductory Pages and Story Pages. The Introductory Pages have been added to the beginning of each theme to give lower-level students a basic overview of key vocabulary words, and to give a starting point for discussion and an introduction to the theme for more advanced students. The Story Pages consist of a two-page spread at the end of each theme to help students use the words in context and practise their reading skills. The OPD English/Chinese is designed for use both in and out of the classroom. Speaking exercises are presented throughout the OPD to allow students to practise new vocabulary in pairs or small groups, while the pronunciation guide in the index allows students to check their pronunciation

"Understanding and Using English Grammar is a developmental skills text for intermediate to advanced students of English as a second or foreign language"--p. xiii.

This award-winning grammar course book provides the basis for linguistic courses and projects on translation, contrastive linguistics, stylistics, reading and discourse studies. Accessible and reader-friendly throughout, key features include: chapters divided into modules of class-length materials each new concept clearly explained and highlighted authentic texts from a wide range of sources, both spoken and written, to illustrate grammatical usage clear chapter and module summaries enabling efficient class preparation and student revision.

Approaching grammar as a process and not a product, this text engages readers in a conversation about English that will help them reflect on how their language works and understand the social judgments that accompany language use--making them feel they are active participants in shaping their language rather than passive victims of grammar rules that someone imposes on them. Employing the terminology of traditional grammar combined with the insights gained by modern linguistic analysis, it describes English as an instrument of communication, and lays the necessary groundwork for thinking about language so that students can extend what they learn to new situations and apply their knowledge of language in ways most useful to them. Three different types of exercises support the learning and review processes and motivate readers to think, talk, and write about English with increasing confidence and sophistication as the term progresses.

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of

cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of

self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.
