This second book in the line of Corvette Buyer's Guides is a welcome addition to the market for Corvette C3 enthusiasts. The C3 Corvettes are the models that come to mind when many think of "Corvette", and in fact, this era of Corvette saw the implementation of numerous features, from emission control systems to an all-aluminum engine to the first Corvette to utilize a computer. Affordable, plentiful, and very restorable, the popular "shark" Corvettes are a perfect subject for this series.

Save a fortune on great-performing customized car speakers. If done by an installer, custom speakers can run to thousands of dollars and your satisfaction isn't necessarily guaranteed. The best solution is to build your own. Car Stereo Speaker Projects Illustrated, by Dan Ferguson, is the one and only illustrated project book that will take you step-by-step through the design and installation of your own customized car speakers, with minimum tools and equipment. You get 20 complete projects covering both front and rear speakers for sedans, pickups, vans, Jeeps, and SUVs. Many of the designs appear nowhere else--and virtually all have tested in use and found to be significant improvements over conventional wisdom. Each project takes you from the circuit schematic to the construction of the enclosure to installing the system in the vehicle. This hands-on guide is loaded with hundreds of digital photos--plus design spreadsheets, Thiele-Small parameter measurement techniques, and examples of speaker design shareware in the Appendix.
