Simplified Chinese edition of What We'll Build: Plans For Our Together Future

Frontier: the word carries the inevitable scent of the West. But before Custer or Lewis and Clark, before the first Conestoga wagons rumbled across the Plains, it was the East that marked the frontier—the boundary between complex Native cultures and the first colonizing Europeans. Here is the older, wilder, darker history of a time when the land between the Atlantic and the Appalachians was contested ground—when radically different societies adopted and adapted the ways of the other, while struggling for control of what all considered to be their land. The First Frontier traces two and a half centuries of history through poignant, mostly unheralded personal stories—like that of a Harvard-educated Indian caught up in seventeenth-century civil warfare, a mixed-blood interpreter trying to straddle his white and Native heritage, and a Puritan woman wielding a scalping knife whose bloody deeds still resonate uneasily today. It is the first book in years to paint a sweeping picture of the Eastern frontier, combining vivid storytelling with the latest research to bring to life modern America's tumultuous, uncertain beginnings.

"In Captives: How Stolen People Changed the World archaeologist Catherine M. Cameron provides an eye-opening comparative study of the profound impact that captives of warfare and raiding have had on small-scale societies through time. Cameron provides a new point of orientation for archaeologists, anthropologists, historians, and other scholars by illuminating the impact that captive-taking and enslavement have had on cultural change, with important implications for understanding the past. Focusing primarily on indigenous societies in the Americas while extending the comparative reach to include Europe, Africa, and Island Southeast Asia, Cameron draws on ethnographic, ethnohistoric, historic, and archaeological data to examine the roles that captives played in small-scale societies. In such societies, captives represented an almost universal social category consisting predominantly of women and children and constituting 10 to 50 percent of the population in a given society. Cameron demonstrates how captives brought with them new technologies, design styles, foodways, religious
