

## Chapter 19 Study Guide Hawthorne High School

An immensely persuasive work of literary criticism that opens a new chapter in the American dialogue on race—and promises to change the way we read American literature. Morrison shows how much the themes of freedom and individualism, manhood and innocence, depended on the existence of a black population that was manifestly unfree—and that came to serve white authors as embodiments of their own fears and desires. According to the Chicago Tribune, Morrison "reimagines and remaps the possibility of America." Her brilliant discussions of the "Africanist" presence in the fiction of Poe, Melville, Cather, and Hemingway leads to a dramatic reappraisal of the essential characteristics of our literary tradition. Written with the artistic vision that has earned the Nobel Prize-winning author a pre-eminent place in modern letters, *Playing in the Dark* is an invaluable read for avid Morrison admirers as well as students, critics, and scholars of American literature.

The most critical yet accessible introduction to work and organizational behaviour.

"The Pit and the Pendulum" is a short story written by Edgar Allan Poe and first published in 1842. The story is about the torments endured by a prisoner of the Spanish Inquisition, though Poe skews historical facts. The narrator of the story is deemed guilty for an unnamed crime and put into a completely dark room. He passes out while trying to determine the size of the room. When he wakes up, he realizes there is a large, deep pit in the middle of the room. He loses consciousness again and awakens strapped on his back, unable to move more than his head. He soon realizes there is a large blade-like pendulum hanging above him, slowly getting closer to cutting through his chest. He finds a way to escape but the walls of his prison start to move and close in on him, pushing him closer and closer to falling into the pit. The story is especially effective at inspiring fear in the reader because of its heavy focus on the senses, such as sound, emphasizing its reality, unlike many of Poe's stories which are aided by the supernatural. The traditional elements established in popular horror tales at the time are followed but critical reception has been mixed.

A breathtaking, enchanting new series by debut author Jessica Townsend, about a cursed girl who escapes death and finds herself in a magical world—but is then tested beyond her wildest imagination. Morrigan Crow is cursed. Having been born on Eventide, the unluckiest day for any child to be born, she's blamed for all local misfortunes, from hailstorms to heart attacks—and, worst of all, the curse means that Morrigan is doomed to die at midnight on her eleventh birthday. But as Morrigan awaits her fate, a strange and remarkable man named Jupiter North appears. Chased by black-smoke hounds and shadowy hunters on horseback, he whisks her away into the safety of a secret, magical city called Nevermoor. It's then that Morrigan discovers Jupiter has chosen her to contend for a place in the city's most prestigious organization: the Wondrous Society. In order to join, she must compete in four difficult and dangerous trials against hundreds of other children, each with an extraordinary talent that sets them apart—an extraordinary talent that Morrigan insists she does not have. To stay in the safety of Nevermoor for good, Morrigan will need to find a way to pass the tests—or she'll have to leave the city to confront her deadly fate. This fast-paced plot and imaginative world has a fresh new take on magic that will appeal to a new generation of readers.

Aylmer is a brilliant and recognized scientist and philosopher who drops his focus from his career and experiments to marry the beautiful Georgiana (who is physically perfect except for a small red birthmark in the shape of a hand on her cheek). As the story progresses, Aylmer becomes unnaturally obsessed with the birthmark on Georgiana's cheek. One night, he dreams of cutting the birthmark out of his wife's cheek (removing it like scraping the skin from an apple) and then continuing all the way to her heart. He does not remember this dream until Georgiana asks about what his sleep-talking meant. When Aylmer remembers the details of his dream, Georgiana declares that she would rather risk her life having the birthmark removed from her cheek than to continue to endure Aylmer's horror and distress that comes upon him when he sees her. The following day, Aylmer deliberates and then decides to take Georgiana to the apartments where he keeps a laboratory. He glances at Georgiana casually and normally but can't help but shudder violently at seeing her imperfection; Aylmer's reaction causes her to faint. When she awakens, he treats her warmly and comforts her with some of his scientific concoctions but when he attempts to take a portrait of her, the image is blurred save for her birthmark revealing the disgust he has of it. He experiments some more and describes some of the successes to her but as he questions how she is feeling, Georgiana begins to suspect that Aylmer has been experimenting on her the entire time without her knowledge and consent. One day, she follows him into his laboratory, and on seeing her there, Aylmer accuses her of not trusting him and says that having her birthmark in the room will foil his efforts. She professes complete trust in him but demands that he inform her of his experiments. He agrees and reveals that his current experiment is his last attempt to remove the birthmark, and Georgiana vows to take the potion, regardless of any danger it poses to her.

A group of Utopians, unhappy with dissolute, mid-19th-century America, takes to the pastoral life; but the members find little satisfaction in the communal life. Instead of changing the world, they pursue self-centered paths that ultimately lead to tragedy. Absorbing 1852 novel about love, idealism, and politics bristles with Hawthorne's perceptive wit and intelligence.

What motivates workers to work harder? What can management do to create a contented and productive workforce? Discussion of these questions would be incomplete without reference to the Hawthorne experiments, one of the most famous pieces of research ever conducted in the social and behavioral sciences. Drawing on the original records of the experiments and the personal papers of the researchers, Richard Gillespie has reconstructed the intellectual and political dynamics of the experiments as they evolved from the tentative experimentation to seemingly authoritative publications. Manufacturing Knowledge raises fundamental questions about the nature of scientific knowledge, and about the assumptions and evidence that underlay debates on worker productivity.

Sample annotations and identifications in the original text: Biblical Allusion: These old gentlemen--seated, like Matthew (the apostle in the Bible, writer of a gospel; was once a tax official prior to his calling to Jesus' ministry) at the receipt of custom, but not very liable to be

summoned thence, like him, for apostolic errands--were Custom-House officers. Identification: To detect, as one or another addressed me, the tremor of a voice which, in long-past days, had been wont to bellow through a speaking-trumpet, hoarsely enough to frighten Boreas (Greek god of the north wind) himself to silence. Events adapted from Hawthorne's life: Such were some of the people with whom I now found myself connected. I took it in good part, at the hands of Providence (divine guidance), that I was thrown into a position so little akin to my past habits; and set myself seriously to gather from it whatever profit was to be had. After my fellowship of toil and impracticable schemes with the dreamy brethren of Brook Farm (communal farm in West Roxbury, MA based on transcendentalism. Like the narrator, Hawthorne was an investor, but later left); after living for three years within the subtle influence of an intellect like Emerson's (Ralph Waldo Emerson: transcendentalist poet); after those wild, free days on the Assabeth (river West of Boston, MA), indulging fantastic speculations, beside our fire of fallen boughs, with Ellery Channing (transcendentalist poet).

There is a certain church, in the city of New York which I have always regarded with peculiar interest on account of a marriage there solemnized under very singular circumstances in my grandmother's girlhood. That venerable lady chanced to be a spectator of the scene, and ever after made it her favorite narrative. Whether the edifice now standing on the same site be the identical one to which she referred I am not antiquarian enough to know, nor would it be worth while to correct myself, perhaps, of an agreeable error by reading the date of its erection on the tablet over the door. It is a stately church surrounded by an enclosure of the loveliest green, within which appear urns, pillars, obelisks, and other forms of monumental marble, the tributes of private affection or more splendid memorials of historic dust. With such a place, though the tumult of the city rolls beneath its tower, one would be willing to connect some legendary interest. "Gold!" Jason shouted at the top of his lungs. "Read all about it! Gold discovered in Alaska!" Within hours of hearing the thrilling news, fifteen-year-old Jason Hawthorn jumps a train for Seattle, stow away on a ship bound for the goldfields, and joins thousands of fellow prospectors attempting the difficult journey to the Klondike. The Dead Horse Trail, the infamous Chilkott Pass, and a five-hundred-mile trip by canoe down the Yukon River lie ahead. With help from a young writer named Jack London, Jason and his dog face moose, bears, and the terrors of a subarctic winter in this bone-chilling survival story. 00-01 Tayshas High School Reading List, 01-02 Young Hoosier Book Award Masterlist (Gr 4-6), 01-02 Young Hoosier Book Award Masterlist (Gr 6-8), 01-02 William Allen White Children's Book Award Masterlist, and 01 Heartland Award for Excellence in YA Lit Finalist Notable Children's Trade Books in the Field of Social Studies 2000, National Council for SS & Child. The Ambitious Guest (+Biographie et Bibliographie) (Glossy Cover Finish): One September night a family had gathered round their hearth, and piled it high with the driftwood of mountain streams, the dry cones of the pine, and the splintered ruins of great trees that had come crashing down the precipice. Up the chimney roared the fire, and brightened the room with its broad blaze. The faces of the father and mother had a sober gladness; the children laughed; the eldest daughter was the image of Happiness at seventeen; and the aged grandmother who sat knitting in the warmest place, was the image of Happiness grown old.

Rappaccini's Daughter is a short story by Nathaniel Hawthorne first published in the December 1844 issue of The United States Magazine and Democratic Review, and later in the 1846 collection Mosses from an Old Manse. It is about Giacomo Rappaccini, a medical researcher in Padua who grows a garden of poisonous plants. He brings up his daughter to tend the plants, and she becomes resistant to the poisons, but in the process she herself becomes poisonous to others. The traditional story of a poisonous maiden has been traced back to India, and Hawthorne's version has been adopted in contemporary works.

In this Hugo Award-winning alternative history classic—the basis for the Amazon Original series—the United States lost World War II and was subsequently divided between the Germans in the East and the Japanese in the West. It's America in 1962. Slavery is legal once again. The few Jews who still survive hide under assumed names. In this world, we meet characters like Frank Frink, a dealer of counterfeit Americana who is himself hiding his Jewish ancestry; Nobusuke Tagomi, the Japanese trade minister in San Francisco, unsure of his standing within the bureaucracy and Japan's with Germany; and Juliana Frink, Frank's ex-wife, who may be more important than she realizes. These seemingly disparate characters gradually realize their connections to each other just as they realize that something is not quite right about their world. And it seems as though the answers might lie with Hawthorne Abendsen, a mysterious and reclusive author, whose best-selling novel describes a world in which the US won the War... The Man in the High Castle is Dick at his best, giving readers a harrowing vision of the world that almost was. "The single most resonant and carefully imagined book of Dick's career." —New York Times
