years of muscle car production. Among the models covered are the Charger, Road Runner, Barracuda, Challenger and Duster.

A guide to more than 300 makes and models of used vehicles, covering model descriptions, fuel economy estimates, recall and service histories, price guidelines, repair costs, and warranties.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Includes a tenth anniversary issue, dated Nov. 1945.

Abandoned junk to some, the rusty old steel shells of vehicles are treasures to others, holding memories of a bygone era, or the promise of a pristinely restored, radically customized automobile. Automotive photographer Will Shiers has captured these dreams on film for over ten years, and this volume collects his images between two covers for the first time. Here are the beautiful husks Shiers has found in the United States fields and barns, shops, and salvage yards across States. Divided into five categories—General Motors, Ford, Chrysler, Independents, and Special Vehicles—these wrecks and relics from 1910 to the 1970s come equipped with all the relevant information: history, model, location.
