We break down each chapter into bite-size chunks that make comprehension and analysis easier. Daring Greatly: How the Courage to be Vulnerable Transforms the Way We Live, Love, Parent, and Lead by Brene Brown explores the power of vulnerability in cultures of scarcity. Originally inspired by Teddy Roosevelt's speech, "The Man in the Arena," Daring Greatly was published in 2012 after a decade of research on the connection between vulnerability and shame. Brown's research suggests that cultures of scarcity make vulnerability difficult. She further suggests that the amount a person protects oneself from vulnerability measures his or her fear and disconnection; the implication being that higher levels negatively affect the health and stability of relationships. Although those who don't believe in the importance of vulnerability may have a difficult time embracing Brown's beliefs, Daring Greatly is a thought-provoking read that will have readers digging deep to find answers to questions they didn't know they had. Summary of Brené Brown's Daring Greatly: How the Courage to Be Vulnerable Transforms the Way We Live, Love, Parent, and Lead. Daring Greatly becomes The #1 New York Times bestseller with 1 million copies sold! 'Daring Greatly' is a phrase from a famous speech by Theodore Roosevelt. The speech underlines that a critic, a fault finder, and others like that do not matter. Who matters is the man that is in the arena, tries repeatedly, gives it all and even if he fails, he does so while 'daring greatly'. Brene Brown considers this to be vulnerability since the man does not know whether he will succeed or fail when he tries something. Contrary to popular belief, vulnerability does not equal weakness. We cannot avoid the risk and doubt we experience all the time. Our single choice lies in the degree of engagement with our vulnerability. It shapes the magnitude of our courage and the transparency of our purpose. Our fear and disconnection show in the way we try to shield ourselves from our vulnerability. If we strive to achieve perfection before entering the arena, then we will waste important chances while waiting for the impossible. Things cannot be perfect and we have to take chances whenever we can. We should move away from criticizing from the sidelines, be part of something, and be observed. Brené Brown is an author, professor, researcher, and podcast host. She has written several inspirational books. She is a research professor at the University of Houston where she holds the Huffington Foundation - Brene Brown Endowed Chair. She is also a visiting professor in management at the University of Texas. Her original book, Daring Greatly, is about having the courage to embrace our vulnerability and building shame resilience. Brown makes a case for accepting our imperfections, welcoming the truth, taking risks to achieve what we are meant to in life, and lead a 'Wholehearted' existence. disavowing the non-participatory critics in favor of the man in the arena. Brown discusses where our fear of vulnerability comes from, why we protect ourselves, the price of disengagement, and owning and engaging with vulnerability to transform ourselves into better (if messier) beings. Brown starts by introducing herself as a fifth generation Texan, born to family with a "lock and load" approach that did not mesh with emotional vulnerability. She left corporate life and returned to school to be a social worker, but the research end-prediction, control-appealed to her more. During her doctoral process, she became a qualitative researcher, meaning the participants define the problem about the topic, and then the researcher develops a theory and sees where it fits in the existing literature (as opposed to proving/disapproving a hypothesis). She studied shame and empathy, and developed a theory of shame resilience.

"It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at the best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly."—Theodore Roosevelt Every day we experience the uncertainty, risks, and emotional exposure that define what it means to be vulnerable or to dare greatly.

Based on twelve years of pioneering research, Brené Brown PhD, MSW, dispels the cultural myth that vulnerability is weakness and argues that it is, in truth, our most accurate measure of courage. Brown explains how vulnerability is both the core of difficult emotions like fear, grief, and disappointment, and the birthplace of love, belonging, joy, empathy, innovation, and creativity. She writes: “When we shut ourselves off from vulnerability, we distance ourselves from the experiences that bring purpose and meaning to our lives.” Daring Greatly is not about winning or losing. It’s about courage. In a world where “never enough” dominates and feeling afraid has become second nature, vulnerability is subversive. Uncomfortable. It’s even a little dangerous at times. And, without question, putting ourselves out there means there’s a far greater risk of getting criticized or feeling hurt. But when we step back and examine our lives, we will find that nothing is as uncomfortable, dangerous, and hurtful as standing on the outside of our lives looking in and wondering what it would be like if we had the courage to step into the arena—whether it’s a new relationship, an important meeting, the creative process, or a difficult family conversation. Daring Greatly is a practice and a powerful new vision for letting ourselves be seen.

#1 NEW YORK TIMES BESTSELLER • When we deny our stories, they define us. When we own our stories, we get to write the ending. Look for Brené Brown’s new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* Social scientist Brené Brown has ignited a global conversation on courage, vulnerability, shame, and worthiness. Her pioneering work uncovered a profound truth: Vulnerability—the willingness to show up and be seen with no guarantee of outcome—is the only path to more love, belonging, creativity, and joy. But living a brave life is not always easy: We are, inevitably, going to stumble and fall. It is the rise from falling that Brown takes as her subject in *Rising Strong*. As a

grounded theory researcher, Brown has listened as a range of people—from leaders in Fortune 500 companies and the military to artists, couples in long-term relationships, teachers, and parents—shared their stories of being brave, falling, and getting back up. She asked herself, What do these people with strong and loving relationships, leaders nurturing creativity, artists pushing innovation, and clergy walking with people through faith and mystery have in common? The answer was clear: They recognize the power of emotion and they're not afraid to lean in to discomfort. Walking into our stories of hurt can feel dangerous. But the process of regaining our footing in the midst of struggle is where our courage is tested and our values are forged. Our stories of struggle can be big ones, like the loss of a job or the end of a relationship, or smaller ones, like a conflict with a friend or colleague. Regardless of magnitude or circumstance, the rising strong process is the same: We reckon with our emotions and get curious about what we're feeling; we rumble with our stories until we get to a place of truth; and we live this process, every day, until it becomes a practice and creates nothing short of a revolution in our lives. Rising strong after a fall is how we cultivate wholeheartedness. It's the process, Brown writes, that teaches us the most about who we are. Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers. We stay curious and ask the right questions. We don't see power as finite and hoard it. We know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations. We lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and artificial intelligence can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture?
