(abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Espanola, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the *Nuevas normas de prosodia y ortografia*, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

Explains what to say in Spanish in a variety of everyday situations and discusses the fundamentals of Spanish grammar.

"Pasaporte" is a conversation-based review text designed for advanced beginning students who need a refresher course before enrolling in second-year Spanish. Courses for this population of students have always presented a myriad of challenges to instructors. In addition to dealing with the disparate knowledge base of students at this level and the time lapse since the last Spanish course taken, we are faced with teaching a year's worth of material in one semester. With so many grammar points to cover, instructors often feel compelled to give short shrift to communicative activities and culture. This rapid treatment of so many linguistic structures leaves students with little opportunity to practice, recycle, and synthesize basic grammar and vocabulary or for communicative activities set in an authentic cultural context. As we formulated the scope and sequence for "Pasaporte," we considered what intermediate students should be able to do when they begin second-year Spanish. Ideally, we would like them to be able to describe and compare people and places; narrate in the present, past and future; talk about likes and dislikes; react and recommend; and begin to recognize how a hypothesis is expressed. With these goals in mind, we determined that the communicative functions would be presented in the context of a Global Opportunities Fair that encourages discussion about real-life opportunities such as study abroad, internships, cultural exchanges, and volunteer work in which the Spanish language would be an obvious asset.

A novel that blends politics, history and romance with unfailing gentleness, unforeseeable, explosive events determine the actions of the characters but never interrupt the work's lyrical structure. Carmen Rojas, the heroine, was a child when, in 1932, she witnessed the brutality of the El Salvadoran National Guard, who murdered 30,000 rioting peasants. The tragedy shapes her political consciousness, and, although she marries an American and lives in Washington, D.C., she cannot escape its memory. Thirty years later, she returns home to attend her mother's funeral and to care for her sickly father, and discovers a diary kept by her mother's American lover in the months before the 1932 uprisings.

The book's hero, a blob of color with arms, legs, and a face, bids readers not to read the book, not to make a funny face, etc., all the while getting very flustered and mentioning rules that must be followed.

In this groundbreaking work, Ellen Meiksins Wood rewrites the history of political theory. She traces the development of the Western tradition from classical antiquity through to the Middle Ages in the perspective of social history—a significant departure not only from the standard abstract history of ideas but also from other contextual methods. Treating canonical thinkers as passionately engaged human beings, Wood examines their ideas not simply in the context of political languages but as creative responses to the social relations and conflicts of their time and place. She identifies a distinctive relation between property and state in Western history and shows how the canon, while largely the work of members or clients of dominant classes, was shaped by complex interactions among proprietors, labourers and states. Western political theory, Wood argues, owes much of its vigour, and also many ambiguities, to these complex and often contradictory relations. From the Ancient Greek polis of Plato, Aristotle, Aeschylus and Sophocles, through the Roman Republic of Cicero and the Empire of St Paul and St Augustine, to the medieval world of Averroes, Thomas Aquinas and William of Ockham, *Citizens to Lords* offers a rich, dynamic exploration of thinkers and ideas that have indelibly stamped our modern world.

Tyler and Anna Mayfield have just relocated from Nebraska to the sun scorched desert town of Wormwood, Nevada. They find themselves in a strange new landscape populated with old school cowboys, alien cultists, meth dealers, and doomsday prophets. Loneliness and desperation pervade Wormwood, and when a meteorite lands in the center of town, its fragile existence begins to unravel as many believe the end of the world is near, while others simply seek a reason to believe in anything at all.

This being a story--and a truer one than it may appear--of a mining country, it is quite to be expected that it will be a hard-luck story. But that depends on the point of view. Hard luck is a mild way of terming it so far as Kink Mitchell and Hootchinoo Bill are concerned; and that they have a decided opinion on the subject is a matter of common knowledge in the Yukon country.

"An epic work of literary creation . . . There could be no greater vindication of the wonders of the lands and people of Latin America than *Memory of Fire*." —The Washington Post Eduardo Galeano's monumental three-volume retelling of the history of the New World begins with *Genesis*, a vast chain of legends sweeping from the birth of creation to the era of savage colonialism. Through lyrical prose and deep understanding, Galeano (author of the celebrated *Open Veins of Latin America*) recounts creation myths, pre-Columbian societies, and the brutality of conquest, from the Andes to the Great Plains. Galeano's project to restore to history "breath, liberty, and the word" unfolds as a unique, powerful work of literature. This daring masterpiece sets the past free, weaving a new kind of history from

mythology, silenced voices, and the clash of worlds. Genesis is the first book of the Memory of Fire trilogy, which continues with Faces and Masks and Century of the Wind.

The Schumann Marriage diaries provide a vivid portrait of the unique artistic and personal union between two renowned musicians. For the first four years of their marriage, Robert and Clara Schumann kept a joint diary, recording their entries, at least initially, on alternate weeks. Begun on September 13, 1840, the day after their marriage, the diary opens with guidance from Robert: "This little book . . . has a very intimate meaning; it shall be a diary about everything that touches us mutually in our household and marriage." The diaries reflect the harmony as well as the discord in their marriage. Robert and Clara describe in intimate detail their honeymoon period, the births of their children, their busy social lives, travels throughout Europe, financial problems, separations, and reunions. The book also evokes the artistic milieu of nineteenth-century Germany. The Schumanns came in contact with many musicians, including their close friends Felix Mendelssohn and Franz Liszt, and recorded their insightful reactions to the artists and their music. The marriage diaries cover a fertile period in Robert Schumann's life, during which he wrote the Spring Symphony, the Piano Concerto, most of his chamber music, his first oratorio, "Paradise and the Peri," and numerous songs. They reflect the frenetic pace at which he worked, as well as his growing bouts of depression, his ambivalent response to Clara's decision to return to the concert stage after a prolonged hiatus, and her anxiety in the face of Robert's changing moods. This edition includes the couple's travel book, written during their stressful concert tour of Russia in 1844, which marked the end of the marriage diaries; Robert Schumann's descriptions of Russian customs; and the poems he wrote in Moscow - all of which provide a fascinating and uniquely detailed glimpse at what it was like to travel in Russia at the time.

"A green hunting cap squeezed the top of the fleshy balloon of a head. The green earflaps, full of large ears and uncut hair and the fine bristles that grew in the ears themselves, stuck out on either side like turn signals indicating two directions at once. Full, pursed lips protruded beneath the bushy black moustache and, at their corners, sank into little folds filled with disapproval and potato chip crumbs."

"Granados was among the leading pianists of his time, and his eloquence at the keyboard inspired critics to dub him the "poet of the piano." In Enrique Granados: Poet of the Piano, Walter Aaron Clark offers the first substantive study in English of this virtuoso pianist, composer, and music pedagogue. While providing detailed analyses of his major works for voice, piano, and the stage, Clark argues that Granados's art represented a unifying presence on the cultural landscape of Spain during a period of imperial decline, political unrest, and economic transformation. Drawing on newly discovered documents, Clark explores the cultural spheres in which Granados moved, particularly of Castile and Catalonia. Granados's best-known music was inspired by the art of Francisco Goya, especially the Goyescas suite for solo piano that became the basis for the opera. These pieces evoked the colorful and dramatic world that Goya inhabited and depicted in his art. Granados's fascination with Goya's Madrid set him apart from fellow nationalists Albeniz and Falla, who drew their principal inspiration from Andalusia. Though he was resolutely apolitical, Granados's attraction to Castile antagonized some Catalan nationalists, who resented Castilian domination. Yet, Granados also made important contributions to Catalan musical theater and was a prominent figure in the modernist movement in Barcelona."

The writings of the French Marxist philosopher Louis Althusser and his associates have figured prominently in the development of contemporary social theory. The Althusserian school of Structural Marxism is a startlingly original synthesis of Marxism and Modernism, which has produced a large body of work that extends across the human sciences and the humanities to engage a wide variety of cultures, theoretical problems, and political issues. Despite the fact that Althusser himself is widely recognized as a major figure, the breadth, coherence, and achievements of Structural Marxism as a whole have gone largely unrecognized. In this, the most systematic and wide-ranging assessment of Structural Marxism in any language, Resch provides a comprehensive and thematic introduction to the work of Althusser, Nicos Poulantzas, Pierre Macherey, Etienne Balibar, Emmanuel Terray, Terry Eagleton, Gran Therborn, Rene Balibar, Perry Anderson, Pierre-Philippe Rey, Michel Pchaux, Guy Bois, and others. Resch's sympathetic and critical study demonstrates the enormous significance of Althusser's modernist renewal of Marxist social theory and its ongoing challenge to post-Marxist movements such as postmodernism and neo-liberalism.

We Had Won the War (Habíamos ganado la Guerra) is the bestselling 2008 memoir about life in post-Civil War Barcelona by the acclaimed Spanish author Esther Tusquets. Unlike the majority of Spanish postwar narratives that are written from the perspective of those who lost the Civil War and suffered under the Franco regime, Tusquets' account recreates the era from the standpoint of the "winners." As the offspring of an upper-middle-class Catalan family who had sided with Franco in the armed conflict, the young Esther grew up as a privileged member of Spanish society, enjoying all the advantages that birth and material affluence could afford. The child's initial enchantment with the glittering, sheltered world of her kin soon turns to disillusionment, as she discerns the fault lines running through the larger social landscape, and senses the hypocrisy and cruelty of her parents' inbred clan. She finds in the inner world of literature and of the imagination compensation for a disturbing outer reality. As the growing girl struggles to find her own way, she experiments with political and religious movements that aim to forge a more just society. Her quest eventually leads to the rejection of all absolutist forms of thought and action, and to the assumption of her life's calling as a publisher and writer. The book paints a vivid picture of life during the early Franco years, while offering an intimate, revealing look at the childhood and adolescence of one of Spain's most remarkable contemporary authors.

Writing, according to Panayotis Tournikiotis, has always exerted a powerful influence on architecture. Indeed, the study of modern architecture cannot be separated from a fascination with the texts that have tried to explain the idea of a new architecture in a new society. During the last forty years, the question of the relationship of architecture to its history -- of buildings to books -- has been one of the most important themes in debates about the course of modern architecture. Tournikiotis argues that the history of modern architecture tends to be written from the present, projecting back onto the past our current concerns, so that the "beginning" of the story really functions as a "representation" of its end. In this book the buildings are the quotations, while the texts are the structure. Tournikiotis focuses on a group of books by major historians of the twentieth century: Nikolaus Pevsner, Emil Kaufmann, Sigfried Giedion, Bruno Zevi, Leonardo Benevolo, Henry-Russell Hitchcock, Reyner Banham, Peter Collins, and Manfredo Tafuri. In examining these writers' thoughts, he draws on concepts from critical theory, relating architecture to broader historical models.

Richard Burwell, of New York, will never cease to regret that the French language was not made a part of his education. This is why: On the second evening after Burwell arrived in Paris, feeling lonely without his wife and daughter, who were still visiting a friend in London, his mind naturally turned to the theatre. So, after consulting the daily amusement calendar, he decided to visit the Folies Bergère, which he had heard of as one of the notable sights. During an intermission he went into the beautiful garden, where gay crowds were strolling among the flowers, and lights, and fountains. He had just seated himself at a little three-legged table, with a view to enjoying the novel scene, when his attention was attracted by a lovely woman, gowned strikingly, though in perfect taste, who passed near him, leaning on the arm of a gentleman. The only thing that he noticed about this gentleman was that he wore eye-glasses...
