Much Ado About Nothing is a comedy by William Shakespeare. First published in 1600, it is likely to have been first performed in the autumn or winter of 1598-1599, and it remains one of Shakespeare's most enduring and exhilarating plays on stage.

Stylistically, it shares numerous characteristics with modern romantic comedies including the two pairs of lovers, in this case the romantic leads, Claudio and Hero, and their comic counterparts, Benedick and Beatrice.

Richard III - William Shakespeare - Richard III is a play by William Shakespeare. It was probably written c. 1592–1594. It is labelled a history in the First Folio, and is usually considered one, but it is sometimes called a tragedy, as in the quarto edition. Richard III concludes Shakespeare's first tetralogy (also containing Henry VI, Part 1, and Henry VI, Part 2, and Henry VI, Part 3) and depicts the Machiavellian rise to power and subsequent short reign of King Richard III of England. It is the second longest play in the Shakespearean canon, and is the longest of the First Folio, whose version of Hamlet, otherwise the longest, is shorter than its quarto counterpart. The play is often abridged for brevity, and peripheral characters removed. In such cases, extra lines are often invented or added from elsewhere to establish the nature of the characters' relationships. A further reason for abridgment is that Shakespeare assumed his audiences' familiarity with his Henry VI plays, frequently referring to these plays.
