ONCE upon a time there were four little Rabbits, and their names were- Flopsy, Mopsy, Cotton-tail, and Peter. They lived with their Mother in a sand-bank, underneath the root of a very big fir tree. "NOW, my dears," said old Mrs. Rabbit one morning, "you may go into the fields or down the lane, but don't go into Mr. McGregor's garden: your Father had an accident there; he was put in a pie by Mrs. McGregor." "NOW run along, and don't get into mischief. I am going out." THEN old Mrs. Rabbit took a basket and her umbrella, to the baker's. She bought a loaf of brown bread and five currant buns. FLOPSY, Mopsy, and Cottontail, who were good little bunnies, went down the lane to gather blackberries; BUT Peter, who was very naughty, ran straight away to Mr. McGregor's garden and squeezed under the gate! FIRST he ate some lettuces and some French beans; and then he ate some radishes; AND then, feeling rather sick, he went to look for some parsley. BUT round the end of a cucumber frame, whom should he meet but Mr. McGregor!

What's in poop is frequently on the no-no list to talk about, especially with younger children, just the opposite of what you will learn in this book. Yet, after you read this book you will not only be able to poo easier and healthier, you

will naturally feel good about one of your body's most important daily productions. “Who am I?” Just a member of society who’s taken notes on what has and hasn’t worked for him. “Why am I writing a self-help book?” Because if I really can make the world a better place, then I feel it’s my responsibility as a member of society to do so. It’s one of my theories. I had never really thought of writing out my theories. They’ve always just popped up as the situation warrants it. Until my friends started calling them “Stevoisms,” it hadn’t even dawned on me how many of these theories I actually had. I decided to go with 101, or so, of my theories for this book. Now what should I call this book? The Book of Stevoisms sounded kind of like a book of jokes more than a book of theories that can make the world a better place—hence the title, Me in Theory.

In these days of an aging traditional audience, shrinking attendance, tightened budgets, increased competition, and exponential growth in new types of communication methods, America's house museums need to take bold steps and expand their overall purpose beyond those of the traditional museum. They need not only to engage the communities surrounding them, but also to collaborate with visitors on the type and quality of experience they provide. This book is a groundbreaking manifesto that calls for the establishment of a more inclusive, visitor-centered paradigm based on the shared experience of human habitation. It draws inspiration from film, theater, public art, and urban design to transform historic house museums while providing a how-to guide for making historic house museums sustainable, through five primary themes: communicating with the surrounding community, engaging the community, re-imagining the visitor experience, celebrating the detritus of human habitation, and acknowledging the illusion of the shelter's authenticity. *Anarchist's Guide to Historic House Museums* offers a wry, but informed, rule-breaking perspective from authors with years of experience and gives numerous vivid examples of both good and not-so-good practices from house museums in the U.S. Silver Award Winner - Mumii Best Baby and Toddler Gear, Parenting Books.
