This book includes one page profiles of transportation, supply chain and logistics industry firms.

The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce ; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of the 400 leading companies in all facets of the automobile industry. Purchasers may also receive a free copy of the company profiles database on CD-ROM.

A guide to the trends and leading companies in the engineering, research, design, innovation and development business fields: those firms that are dominant in engineering-based design and development, as well leaders in technology-based research and development.

This annual publication contains data on world maritime transport and ancillary services and reviews recent developments, focusing on maritime activities in developing countries as compared with other groups of countries. Chapters cover: the development of international seaborne trade; structure and ownership of the world fleet, and registration of vessels; operational productivity, supply and demand in world shipping, cargo turnover and fleet ownership; trade and freight markets, including markets for seaborne freight such as crude oil and petroleum products, dry bulk shipping and liner shipping; port development, including container port traffic and port security; trade and transport efficiency, including legal aspects, inland transport developments, and status of conventions; and regional developments in Asia.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

This reference book is a complete guide to the trends and leading companies in the engineering, research, design, innovation and development business fields: those firms that are dominant in engineering-based design and development, as well leaders in technology-based research and development. We have included companies that are making significant investments in research and development via as many disciplines as possible, whether that research is being funded by internal investment, by fees received from clients or by fees collected from government agencies. In this carefully-researched volume, you'll get all of the data you need on the American Engineering & Research Industry, including: engineering market analysis, complete industry basics, trends, research trends, patents, intellectual property, funding, research and development data, growth companies, investments, emerging technologies, CAD, CAE, CAM, and more. The book also contains major statistical tables covering everything from total U.S. R&D expenditures to the total number of scientists working in various disciplines, to amount of U.S. government grants for research. In addition, you'll get expertly written profiles of nearly 400 top Engineering and Research firms - the largest, most successful corporations in all facets of Engineering and Research, all cross-indexed by location, size and type of business. These corporate profiles include contact names, addresses, Internet addresses, fax numbers, toll-free numbers, plus growth and hiring plans, finances, research, marketing, technology, acquisitions and much more. This book will put the entire Engineering and Research industry in your hands. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

Bills of Lading: Law and Contracts provides a detailed legal analysis of common standard form clauses in bills of lading (and waybills) which are in use in the maritime world, as well as a comprehensive examination of the legal principles which are applicable to them. Bills of Lading: Law and Contracts provides a detailed legal analysis of standard form

clauses in bills of lading (and waybills) which are in use in the maritime world, as well as a comprehensive examination of the legal principles which are applicable to them. Ex-reporter Christian Hunt debunks the world's greatest myths, from the Bermuda Triangle and Loch Ness Monster to Crop Circles. But on Christmas Eve in London, Hunt reluctantly faces his biggest challenge yet. Hunt's plans for a peaceful Christmas are shattered by an unplanned visit from a man named Ryko, who tells Hunt he has been hired to track down Hailey Osbourne—the woman Hunt loved and lost nine years earlier. With Hailey's life in jeopardy and terrorists now hot on his trail, Hunt has no choice but to partner with Ryko on a mission to find her and investigate why religious icons around the world are being systematically destroyed. As their perilous journey takes them across Europe, they are plunged into a world of ancient foes and modern conflicts in a race against time to stop a threat far more sinister than they ever imagined. In this fast-paced thriller, conspiracy and danger surround the two men who are about to discover that the destruction of the world's religious icons is just the beginning.

This fourth edition is a detailed but easy-to-follow account of the constitution, workings and daily practice of protection and indemnity clubs. Designed to be a practical reference source for anyone who is in any way involved with mutual insurance, it offers comprehensive guidance on the complex area of P&I Clubs. The new fourth edition has been fully revised and updated since the last edition was written in 1999. New areas emphasised in the fourth edition include: • Piracy • Charterers' liability insurance • Defence Cover • Disputes concerning the Inter-Club Agreement • Enforceability of arbitration agreements in the Club's Rules. • The Club's obligation to (i) make direct payments under certificates, (ii) pay death/ personal injury claims in the event of a member's insolvency, and (iii) make indivisible personal injury claims.

This immense, global sector is vital to all businesses. This book covers exciting trends in supply chain and logistics management, transportation, intermodal shipment systems and advanced technologies. Market analysis, statistics and trends included. Contains profiles of the 300 leading firms.
