

Headway Intermediate Fourth Edition Test

A complete language-learning package for American English students at intermediate level.

The first four levels of a new video series to accompany the New Headway. It can be used as an additional component to the New Headway, or as a supplement to any course at the appropriate level. Key Features Each level consists of six self-contained comedy stories looking at the lives and misadventures of four people in their twenties who share a house. The syllabus is closely linked to the New Headway. Each episode provides a natural context to consolidate the grammatical, functional and lexical areas covered by the course, and to develop listening skills. Key language is controlled and contextualized throughout. Each episode provides clear grammar and functional language, with an emphasis on developing communicative skills. The video is supported by an Activity Book for students and a Video Guide for teachers. Student's Book Before you watch, While you watch, and After you watch activities for full exploitation of the video Attractive illustrations in full colour Complete transcript

Thinking Italian Translation is a comprehensive and practical translation course. It focuses on improving translation quality and gives clear definitions of translation theories. Texts are taken from sources including journalism, technical texts and screenplays. Translation issues addressed include cultural differences, genre, and revision and editing. Adapted from the successful French-based Thinking Translation (1992), the course has been piloted and refined at the Universities of St Andrews and Glasgow. A Tutor's Handbook is available, which contains invaluable guidance on using the course.

Headway is for students who want to use English accurately and fluently, and to communicate with ease in both social and everyday situations. This latest addition to the Headway family offers the beginner and false beginner all the best features of the Headway package plus the newer features of 'Everyday English' sections, an integrated vocabulary syllabus, and revision and self-access sections after every four units.

A clear and effective approach to learning evidence-based DBT skills—now in a fully revised and updated second edition. Do you have trouble managing your emotions? First developed by Marsha M. Linehan for treating borderline personality disorder, dialectical behavior therapy (DBT) has proven effective as treatment for a range of other mental health problems, and can greatly improve your ability to handle distress without losing control and acting destructively. However, to make use of these techniques, you need to build skills in four key areas: distress tolerance, mindfulness, emotion regulation, and interpersonal effectiveness. The Dialectical Behavior Therapy Skills Workbook, a collaborative effort from three esteemed authors, offers evidence-based, step-by-step exercises for learning these concepts and putting them to work for real and lasting change. Start by working on the introductory exercises and, after making progress, move on to the advanced-skills chapters. Whether you're a mental health professional or a general reader, you'll benefit from this clear and practical guide to better managing your emotions. This fully revised and updated second edition also includes new chapters on cognitive rehearsal, distress tolerance, and self-compassion. Once you've completed the exercises in this book and are ready to move on to the next level, check out the authors' new book, The New Happiness Workbook. Trusted worldwide. Inspired by you. With wit and sharp insight, former Traffic Commissioner of New York City, Sam Schwartz a.k.a. “Gridlock Sam,” one of the most respected transportation engineers in the world and consummate insider in NYC political circles, uncovers how American cities became so beholden to cars and why the current shift away from that trend will forever alter America's urban landscapes, marking nothing short of a revolution in how we get from place to place. When Sam Schwartz was growing up in Bensonhurst, Brooklyn—his block belonged to his community: the kids who played punchball and stickball & their parents, who'd regularly walk to the local businesses at which they also worked. He didn't realize it then, but Bensonhurst was already more like a museum of a long-forgotten way-of-life than a picture of America's future. Public transit traveled over and under city streets—New York's first subway line opened in 1904—but the streets themselves had been conquered by the internal combustion engine. America's dependency on the automobile began with the 1908 introduction of Henry Ford's car-for-everyone, the Model T. The “battle for right-of-way” in the 1920s saw the demise of streetcars and transformed America's streets from a multiuse resource for socializing, commerce, and public mobility into exclusive arteries for private automobiles. The subsequent destruction of urban transit systems and post WWII suburbanization of America enabled by the Interstate Highway System and the GI Bill forever changed the way Americans commuted. But today, for the first time in history, and after a hundred years of steady increase, automobile driving is in decline. Younger Americans increasingly prefer active transportation choices like walking or cycling and taking public transit, ride-shares or taxis. This isn't a consequence of higher gas prices, or even the economic downturn, but rather a collective decision to be a lot less dependent on cars—and if American cities want to keep their younger populations, they need to plan accordingly. In *Street Smart*, Sam Schwartz explains how. In this clear and erudite presentation of the principles of smart transportation and sustainable urban planning—from the simplest cobblestoned street to the brave new world of driverless cars and trains—Sam Schwartz combines rigorous historical scholarship with the personal and entertaining recollections of a man who has spent more than forty years working on planning intelligent transit networks in New York City. *Street Smart* is a book for everyone who wants to know more about the who, what, when, where, and why of human mobility.

Provides additional activities for further practice that are specifically tailored to fit with the Student's Book content. Includes extension activities with extra grammar and vocabulary exercises related to the unit topic to extend learning. Everyday English tasks present further opportunities to practice relevant, real life English. Review sections allow students to test themselves and to see how much they can

remember. The answer key allows students to check their own answers and review their progress.

This is a practical and imaginative addition to the New Headway. It helps students to express themselves clearly and confidently by training them in the key areas of pronunciation. There is practice of individual sounds, with a guide to suitable exercises for speakers of particular languages. There is a focus on lexical sets. Training is given in stress and intonation patterns for accurate, functional use. Help is provided with the features of connected speech.

Notes with hints, suggestions, and 'possible problems' feature Photocopiable activities for every unit Teacher's Resource Disc - communicative activities, tests, grammar reference, word lists, tapescripts and audio

A needs-based supplementary series for adults and young adults.
