

How Cities Work Lonely Planet Kids

On his first day of preschool, Dimitri's vocal affection for everything is met with wary reactions--until his guileless words begin to take root and grow. Dimitri may be small, but his heart is as big and as open as a cloudless blue sky. "I love you," Dimitri tells his new classmates at preschool. "I love you," Dimitri tells the class guinea pig and the ants on the ground. "I love you," Dimitri tells the paintbrushes and the tree with heart-shaped leaves. So why doesn't anyone say "I love you" back? Could love also be expressed in unspoken ways? In a familiar story of navigating the social cues of new friendship, author Jane Porter and illustrator Maisie Paradise Shearring offer a thoughtful tribute to the tender ones--those who spread kindness simply by being, and who love without bounds.

"From London and Las Vegas to Sydney and Shanghai, become an urban time traveler with this interactive tour of some of the world's greatest cities. Lift the flaps and full-page gatefolds to see how these mighty metropolises once looked compared to how they look now, then read their incredible histories."--Back cover.

It's time to explore lost prehistoric lands and the huge variety of dinosaurs that roamed them with Lonely Planet Kids' Dinosaur Atlas. Kids can unfold maps and lift the flaps to reveal amazing illustrations and facts about how dinosaurs lived and where they were discovered. They'll also learn about famous paleontologists and measure themselves against life-size bones, teeth and claws. From giant sauropods and horned dinosaurs, to duckbills and ferocious theropods, kids will discover how the dinosaurs evolved, what they looked like and how they hunted. Plus, we've included the latest finds and theories. Created in consultation with Dr David Button, a dinosaur expert at the North Carolina Museum of Natural Sciences, and featuring iconic illustrations by James Gilleard. About Lonely Planet Kids: Come explore! Let's start an adventure. Lonely Planet Kids excites and educates children about the amazing world around them. Combining astonishing facts, quirky humour and eye-catching imagery, we ignite their curiosity and encourage them to discover more about our planet. Every book draws on our huge team of global experts to help share our continual fascination with what makes the world such a diverse and magnificent place - inspiring children at home and in school.

From the sewers to the skyscrapers, this brilliant book takes younger readers to the heart of the city. Perforated flaps let you see what's going on behind closed doors, and big gatefolds reveal what's going on under the street you walk on each day, along with other unusual city spaces. Illustrated by James Gulliver Hancock and with surprises on every page, it's the city like you've never seen it before.

This full-colour edition highlights the clamour and throng of Lonely's Planet's favourite urban landscapes and is filled with breathtaking photography, perfect for the armchair traveller. Includes its 'Top 10 Cities' feature still identifying the best cities in the world.

Blast off into the cosmos with the latest title in the popular 'How Things Work' series which includes How Cities Work, How Airports Work, How Trains Work and How Ships Work - books that reveal the inner workings of familiar places and vehicles. Featuring fantastic illustrations by James Gulliver Hancock, this title explores the ultimate vehicles: spaceships - how they do what they do, what they're used for and their development through history. Spreads will look at how rockets blast off into space, how people were sent to the Moon and back, how space centres prepare spaceships and astronauts for amazing adventures across the cosmos. It will also look at all different types of spacecraft: space stations and satellites orbiting Earth, rovers trundling over the surface of Mars, and probes travelling at thousands of miles per second through the outer reaches of the Solar System on incredible journeys of discovery. Full-page gatefolds and flaps explore spaceships both big and small, inside and out. It's going to be out of this world! Contents: Leaving Earth: The history of spaceflight Satellites Rockets Manned Spaceflights Space Probes Landers Moon Missions Rovers Space Centres Space Telescopes Space Stations Spaceships of the Future About Lonely Planet Kids: Lonely Planet Kids - an imprint of the world's leading travel authority Lonely Planet - published its first book in 2011.
