Rethinking Society in the 21st Century is a unique collection of readings that fills a critical void in introductory sociology in Canada. The third edition has been thoroughly updated with 24 new chapters that complement the chapters retained from previous editions. Rethinking Society introduces students to the foundational elements of sociology with a balance of classical theory -- Marx, Webber, Durkheim, Mills -- and more contemporary approaches found in the work of Michel Foucault, Dorothy Smith, and George Sefa Dei. Building on this theoretical grounding, the text outlines core concepts in sociology -- socialization, social interaction, and culture -- as well as major social institutions such as families, the economy and labour, education, and health care. Later sections address crime, moral regulation, race, class, age, gender, sexuality, and issues of population and globalization with relevant and engaging chapters chosen to provoke thought and discussion. With a diverse selection of authors and a pronounced emphasis on Canadian content, Rethinking Society in the 21st Century is the ideal reader for Canadian students.

To meet the needs of the fast growing numbers of Latino/a English learners, this volume presents an approach to secondary education teacher preparation based on the work of the National Latino/a Education Research and Policy Project (NLERAP). Renowned scholar and educator Angela Valenzuela, together with an impressive roster of contributors, provides a critical framework for educating culturally responsive teachers. They examine the knowledge, skills, and predisposition required for higher education institutions to create curricula for educating Latino/a children, children of colour, and language minority youth. Growing Critically Conscious Teachers illuminates why growing our own teachers makes sense as an approach for not only addressing the achievement gap, but for also enhancing the well-being of our communities as a whole.

The Literature for Learning Standards-Based Study Guide was developed to help bring back the joy of reading novels into the classroom. This study guide uses an entire novel rather than an abridged version to teach students the fundamentals of reading, writing, and grammar as a primary or secondary source for learning many of the content standards in language arts. This study guide provides practice activities to help students improve reading comprehension skills, increase vocabulary, develop essay organizational and writing skills, and improve spelling, grammar, and punctuation skills within the context of the novel. The format of the study guide is modeled after the types of questions commonly found on standardized tests. This format is stylized in a comparable layout and contains similar terminology used in state and national standardized tests so that students become familiar with the types of questions on which they will be tested, based on their grade-level standards.

The Student Study Guide is an important and unique component that is available for each of the eight books in The World in Ancient Times series. Each of the Student Study Guides is designed to be used with the student book at school or sent home for homework assignments. The activities in the Student Study Guide will help students get the most out of their history books. Each Student Study Guide includes chapter-by-chapter two-page lessons that use a variety of interesting activities to help a student master history and develop important reading and study skills.
