Psalms for Young Children Eerdmans Books for Young Readers

"My First Psalms features 50 psalms beautifully retold by master rhymer Dandi Daley Mackall. Mackall uses sweet, fun language to make God's Word accessible to children ages 4-7."--

"Understanding Psalms for Children" originated from the desire to help younger generations comprehend the intense, unconditional, and unfailing love God has for each one of us. Acknowledging the wonders God has done in our lives from an early age will help children nurture their trust, hope, joy, faith, and love in our awesome God! The purpose of paraphrasing the Psalms and writing them in simple terms was not to detract children from reading the original versions but to encourage their assimilation through their comprehension. Activities are included to reinforce the absorption of the psalms. These psalms are recommended to be meditated upon daily, even if the activities have been completed. The intent on this book is to strengthen children's relationship with their most loving God through praise, thanksgiving, and trust.

The Kids' Mini Psalm Book Series focuses on lessons that children can glean from the Psalms. It uses illustrated stories to communicate the wisdom found in these Bible verses. The author crafts each story with fun and clarity in mind. This makes it easy for youngsters to follow along and soak up all the lessons that the Bible has to offer. This

book is the second in the Kids' Mini Psalm Book Series. In this inspiring story, a dolphin named Chesles faces fur seal bullies. After attending church and learning Psalm 27, she discovers strength in herself and in God. From there, she gains the courage to face the seals' wicked cowardice and to respond with faith and goodness. This story will encourage children to do the same and seek solace in Psalm 27 when they feel downtrodden! The series adapts the Biblical Book of Psalms for readers ages four to eight. It appeals to parents, Sunday school groups, and churches seeking unconventional ways to explore biblical principles. The characters explain how wicked people's cowardice may threaten good, faithful people. They illustrate how confidence in God helps His children to remain strong. The book encourages children to face the future with courage and the knowledge that God's provision will help them through hard times. There is an activity section to engage readers further.

A selection of twenty-five paraphrased psalms, with accompanying prayers and questions for further self-discovery.

celebrations, and bring it all to God. Psalms teach us how to pray, in the hard times and the good times, in church and alone and with the people we love. I hope that my versions ring true with each original Psalm and also translate ancient words and mind-pictures into images to which children can relate. I also hope that you explore other translations and enjoy 'saying the Psalms' together in lots of different ways. Some of these poems are prayers for home, perhaps for bedtime. Some are for church, for all-age worship. Psalms were originally songs; these versions are to be read aloud. Many are formatted for several voices, which works well in church for involving children. Praise for Let's Say a Palm "For millennia, the Psalms have been the prayer book for people of faith. Silvia Purdie has paraphrased each one in a delightful way, bringing freshness to the themes. She helps people today - including youth and children - experience the relevance of the thoughts and prayers in each Psalm. Her paraphrases are a delight." Rev Lynne Baab, PhD, author of Sabbath Keeping & The Power of Listening

What if we could find the switch to turn off the violence in our world? What if we discovered that the keys to ending the generation-upon-generation cyclic nature are forged within the smallest of children, the newborn and the yet to be born? What happens at birth and in the first years of life is built upon the foundations laid by the quality of energy conveyed at conception and experienced during intra-uterine development. It is from these many storied domains, built into our memories and consciousness that the belief systems and thus the feelings and behavior of our adult lives derive. Thus, if we are to moderate the trauma of worldwide
