Trekking in EcuadorThe Mountaineers Books

Rafe Foxe-Gentry, a snooty, upper-class Englishman working for GTG, a crooked multinational based in the mythical Australian state of Galahnia, is a rakish womaniser, whose nightly Got Laid Parades terminate abruptly when he falls for his Russian wife's beautiful and eccentrically brilliant young niece, Venetia. Put in charge of a visiting delegation of Russians negotiating a commercial agreement between GTG and the USSR, with Venetia as interpreter, Rafe finds the Soviet delegates more interested in booze, nightclubs, and women than in discussions. During negotiations in Singapore, the riotous behaviour of the sozzled Soviets leads to threatening Cold War complications, major disaster being narrowly averted by Venetia's ingenuity. Rafe returns triumphantly home, only to find himself in even greater trouble as the situation becomes unexpectedly perilous, homicidal and dismayingly revelatory. His affair with Venetia, once wildly sexual and heart-breakingly romantic, now degenerates into a series of despairing battles between love and hate. In turn sensual, brutal, satirical and witty, this riotous black comedy depicts the greed, corruption and madness of the H-bomb eighties, and spares no one, including its madcap hero, in its scathing portrait of an era as unrestrained and vicious as it was violent and grasping.

Featuring chapters on physics, structure, sound and design specifics, Technology of the Guitar also includes coverage of historical content, composition of strings and their effects on sound quality, and important designs. Additionally, author Mark French discusses case studies of historically significant and technologically innovative instruments. This is a complete reference useful for a broad range of readers including guitar manufacturer employees, working luthiers, and interested guitar enthusiasts who do not have a science or engineering background.

Describes the history, customs, traditions, geology, climate, national parks and conservation areas, religion, and wildlife of this South American country.

The Raven: six men and an elf, sword for hire in the wars that have torn apart Balaia. For years their loyalty has been only to themselves and their code. But, that time is over. The Wytch Lords have escaped and The Raven find themselves fighting for the Dark College of magic, searching for the location of Dawnthief. It is a spell created to end the world, and it must be cast if any of them are to survive. Dawnthief is a fast paced epic about a band of all-too-human heroes. From the Trade Paperback edition.

The standard mode of transportation for decades in Europe, motor scooter was a cult "fun" vehicle in the USA until the past two years. With oil prices soaring and the 20-to-40 set looking for alternative means of commuter (and weekend cruising) travel, motor scooter have exploded across the United States. In 2001, less than 30,000 scooters cruised U.S. roadways. In 2005, over 100,000 are road-bound, and the number is growing by double digits each year. Beginning at \$1,000 and ranging up over \$5,000, dozens of models of scooters are available, as are thousands of accessories. And scooter clubs meet from San Diego to Bangor, Maine. Every year, the largest gathering of motor scooters takes place in Indianapolis, speed capital of the world. The Complete Idiot's Guide to Motor Scooters is the perfect introduction to the wonderful world of motor scooting.
