Updated, revised and reorganized, Coon, Mitterer and Martini's **PSYCHOLOGY: MODULES FOR ACTIVE LEARNING**, 15th Edition includes all-new chapter-specific learning outcomes and formative assessments based on Bloom's taxonomy. It is fully compatible with the new learning outcomes developed by the American Psychological Association. An emphasis on reflection, critical thinking and human diversity illustrates their importance as cross-cutting themes in psychology. In addition, each module cluster includes a full module devoted to skill development, highlighting skills that will help learners succeed both personally and professionally. The new edition retains the bestseller's engaging style, appealing visuals and detailed coverage of core topics and cutting-edge research. It builds on the proven modular format and on the teaching and learning tools integrated throughout. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This directory lists education institutions world-wide where professional education and training programmes in the field of library, archive and information science are carried out at a tertiary level of education or higher. More than ten years after the publication of the last edition, this up-to-date reference source includes more than 900 universities and other institutions, and more than 1.500 relevant programmes. Entries provide contact information as well as details such as statistical information, tuition fees, admission requirements,
