An essential handbook to the unwritten and often unspoken knowledge and skills you need to succeed in grad school. Some of the most important things you need to know in order to succeed in graduate school—like how to choose a good advisor, how to get funding for your work, and whether to celebrate or cry when a journal tells you to revise and resubmit an article—won't be covered in any class. They are part of a hidden curriculum that you are just expected to know or somehow learn on your own—or else. In this comprehensive survival guide for grad school, Jessica McCrory Calarco walks you through the secret knowledge and skills that are essential for navigating every critical stage of the postgraduate experience, from deciding whether to go to grad school in the first place to finishing your degree and landing a job. An invaluable resource for every prospective and current grad student in any discipline, *A Field Guide to Grad School* will save you grief—and help you thrive—in school and beyond. Provides invaluable advice about how to:

- Choose and apply to a graduate program
- Stay on track in your program
- Publish and promote your work
- Get the most out of conferences
- Navigate the job market
- Balance teaching, research, service, and life

programs. Ordered chronologically, from the first year of graduate school (Settling In) to what students need to know as they finish (Winding Down and Gearing Up), students will learn the key skills needed to succeed in all aspects of their academic and professional careers while in school and after beginning a professional career.

This is a book for dedicated academics who consider spending years masochistically overworked and underappreciated as a laudable goal. They lead the lives of the impoverished, grade the exams of whiny undergrads, and spend lonely nights in the library or laboratory pursuing a transcendent truth that only six or seven people will ever care about. These suffering, unshaven sad sacks are grad students, and their salvation has arrived in this witty look at the low points of grad school. Inside, you'll find:

- advice on maintaining a veneer of productivity in front of your advisor
- tips for sleeping upright during boring seminars
- a description of how to find which departmental events have the best unguarded free food
- how you can convincingly fudge data and feign progress

This hilarious guide to surviving and thriving as the lowliest of life-forms—the grad student—will elaborate on all of these issues and more.

"One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. A Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small

pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

Is a career as a professor the right choice for you? If you are a graduate student, how can you clear the hurdles successfully and position yourself for academic employment? What's the best way to prepare for a job interview, and how can you maximize your chances of landing a job that suits you? What happens if you don't receive an offer? How does the tenure process work, and how do faculty members cope with the multiple and conflicting day-to-day demands? With a perpetually tight job market in the traditional academic fields, the road to an academic career for many aspiring scholars will often be a rocky and frustrating one. Where can they turn for good, frank answers to their questions? Here, three distinguished scholars—with more than 75 years of combined experience—talk openly about what's good and what's not so good about academia, as a place to work and a way of life. Written as an informal conversation among colleagues, the book is packed with inside information—about finding a mentor, avoiding pitfalls when writing a dissertation, negotiating the job listings, and much more. The three authors' distinctive opinions and strategies offer the reader multiple perspectives on typical problems. With rare

Surviving and Thriving in Stepfamily Relationships draws on current research, a wide variety of clinical modalities, and thirty years of clinical work with stepfamily members to describe the special challenges stepfamilies face. The book presents the concept of "stepfamily architecture" and the five challenges it creates, and delineates three different levels of strategies—psychoeducation, building interpersonal skills, and intrapsychic work—for meeting those challenges in dozens of different settings. The model is designed to be useful both to stepfamily members themselves and to a wide

variety of practitioners, from a highly trained clinician who needs to know how and when to work on all three levels, to a school counselor or clergy person who may work on the first two levels but refer out for level three. It will also be useful to educators, judges, mediators, lawyers and medical personnel who will practice on the first level, but need to understand the other two to guide their work.

Dr. Ellenbogen has surfaced once again to answer the age-old question, "Is psychology dead, or is it just sleeping?" And once again, he has pulled together some of the zaniest, most irreverent articles from his satirical Journal of Polymorphous Perversityr - a magazine that the Wall Street Journal called, "A social scientist's answer to Mad magazine." It just may prove to be the most effective self-help book you ever pick up! More Oral Sadism and the Vegetarian Personality unearths such gems as: What clinicians write down and what they really mean. Politically correct interpersonal relating.
