Rates consumer products from stereos to food processors

Used extensively in nursing education, Betty Neuman's Systems Model reflects nursing's interest in holism and in the influence of environment on health. This volume opens with a brief biography of Betty Neuman and continues with a succinct discussion of her theory that outlines its origins, assumptions, and the major concepts of the meta-paradigm of nursing. It continues with a presentation of the propositions of the conceptual model; examples for application to practice and research; classic works, critiques, and research; and a glossary of important terms.
