

The Little Book Of Restorative Justice Revised And Updated Justice And Peacebuilding

Relax, unwind and soak up the wisdom of the sloth with the slowest page turner you'll ever read.

In a mere quarter-century, restorative justice has grown from a few scattered experimental projects into a worldwide social movement, as well as an identifiable field of practice and study. Moving beyond its origins in the criminal justice arena, restorative justice is now being applied in schools, homes, and the workplace. The 31 chapters in this book confront the key threats to the 'soul' of this emerging international movement. The contributing authors are long-term advocates and practitioners of restorative justice from North America, Europe, Australia, New Zealand and South Africa.

The purpose of this book is to illuminate a theory of youth engagement in restorative justice that seeks to create systems change for more equitable schools. The authors define youth engagement in restorative justice as partnering with young people most impacted by structural injustice as changemakers in all aspects of restorative practices including community building, healing, and the transformation of institutions. Based on Adam Fletcher's version of the Ladder of Youth Engagement, coupled with Barbara Love's model of liberatory consciousness and an analysis of youth engagement in Restorative Justice in three different regions—Western Massachusetts, Oakland, and Houston—the authors provide a theoretical contribution: Youth Engagement in Restorative Justice grounded in liberatory consciousness. In this book readers will find: Comparative case studies from different parts of the country of youth led restorative justice programs. An exploration of the cultural and historical context of each region to situate the work. Stories from the authors' own lives that provide context for their interest in the work given their varied racial identities (White, Black, Latinx, South Asian) and upbringing. Literature review of the language of youth engagement vs. youth leadership/youth organizing/youth participation, along with a new definition of youth engagement in restorative justice. Theoretical framing based on Adam Fletcher's Ladder of Youth Engagement, which provides a structure for the book. Exploration of how adults must combat adultism both individually and systematically as a prerequisite to doing this work. Student narratives.

Applications of the work in the virtual context.

Vengeance and bitter violence have had their turns -- without redemptive results. How should we as a society respond to wrongdoing? When a crime occurs or an injustice is done, what needs to happen? What does justice require? Howard Zehr, known worldwide for his pioneering work in transforming our understandings of justice, here proposes workable Principles and Practices for making restorative justice both possible and useful. First he explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach, into theoretical space, Zehr presents Restorative Justice Practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This is a handbook, a vehicle for moving our society toward healing and wholeness. This is a sourcebook, a starting point for handling brokenness with hard work and hope. This resource is also suitable for academic classes and workshops, for conferences and trainings. By the author of *Changing Lenses*; *Transcending: Reflections of Crime Victims*; and *Doing Life: Reflections of Men and Women Serving Life Sentences*.

Engaging Practices for Integrating Restorative Justice Principles in Group Settings As restorative practices spread around the world, scholars and practitioners have begun to ask very important questions: How should restorative practices be taught? What educational structures and methods are in alignment with restorative values and principles? This book introduces games as an effective and dynamic tool to teach restorative justice practices. Grounded in an understanding of restorative pedagogy and experiential learning strategies, the games included in this book provide a way for learners to experience and more deeply understand restorative practices while building relationships and improving skills. Chapters cover topics such as: Introduction to restorative pedagogy and experiential learning How a restorative learning community can be built and strengthened through the use of games and activities How to design games and activities for teaching restorative practices How to design, deliver, and debrief an activity-based learning experience In-depth instructions for games and activities for building relationships, understanding the restorative philosophy, and developing skills in practice An ideal handbook for educators, restorative justice program directors and trainers, consultants, community group leaders, and anyone else whose work draws people together to resolve disagreements or address harm, this book will serve as a catalyst for greater creativity and philosophical alignment in the teaching of restorative practices across contexts.

Restorative practice is an innovative approach to thinking about, and addressing, conflict and bullying, as well as disruptive, challenging and criminal behaviour. The approach is increasingly used to transform the culture of organisations, institutions and services and the way people communicate with one another. In this book, ten practitioners describe a restorative encounter as seen through the lens of their own theoretical model. The book's unique structure is modelled on a restorative practice known as Circle Time- comprising of a Check-in, a Main Activity, and a Check-out. In the Check-in the practitioner explains how their own theoretical model informs their practice; in the Main Activity they comment on the same case studies to highlight how each theory can deepen our understanding of what might be happening and why; and in the Check-out they reflect on what they have learned from reading each other's contributions. This is a unique exemplar of how restorative theory and practice can influence how practitioners think, learn and write about restorative practice. This will be an invaluable resource for restorative practitioners working across sectors including education, social services, youth offending or policy.

Restoring Justice: An Introduction to Restorative Justice offers a clear and convincing explanation of restorative justice, a movement within criminal justice with growing worldwide influence. It explores the broad appeal of this new vision and offers a brief history of its development. The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter, amends, inclusion and reintegration. After exploring how restorative justice ideas and values may be integrated into policy and practice, it presents a series of key issues commonly raised about restorative justice, summarizing various perspectives on each.

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-

crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Discover the police-youth dialogue (PYD) as a method to build trustworthiness, mend relationships, and heal historical harms between black youth and law enforcement. This timely book from the Justice and Peacebuilding series offers an explanation of the need for meaningful dialogue between law enforcement and black youth, a blueprint for implementing police-youth dialogues, best practices and examples, anecdotes and narratives from participants, different models and formats, potholes and limitations, and tangible tools and action steps for starting a police-youth dialogue program. Ultimately, the strategies and techniques used in effective police-youth dialogues can bring attention to issues of implicit bias and the impact of toxic stress on marginalized groups, ameliorate tensions between law enforcement officers and black youth, and build toward a model of community policing and restorative justice rather than punitive discipline and violence. *The Little Book of Police-Youth Dialogue* presents readers with relevant knowledge and research regarding trauma and race in the United States, strategies for creating a safe space of attentive listening and mediating genuine connections between police officers and black youth, and specific ways to take action in ameliorating police-youth tensions and promoting healing in their local communities.

Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. A title in *The Little Books of Justice and Peacebuilding Series*.

So we'd all like a more peaceful world—no wars, no poverty, no more racism, no community disputes, no office tensions, no marital skirmishes. Lisa Schirch sets forth paths to such realities. In fact, she points a way to more than the absence of conflict. She foresees justpeace—a sustainable state of affairs because it is a peace which insists on justice. Schirch singles out four critical actions that must be undertaken if peace is to take root at any level) — 1.) waging conflict nonviolently; 2.) reducing direct violence; 3.) transforming relationships; and 4.) building capacity. From Schirch's 15 years of experience as a peacebuilding consultant in Africa, Asia, and Latin America. A title in *The Little Books of Justice and Peacebuilding Series*.

Restorative justice is gaining acceptance for addressing harm and crime. Interventions have been developed for a wide range of wrongdoing. This book considers the use of restorative justice in response to sexual abuse. Rather than a blueprint or detailing a specific set of programs, it is more about mapping possibilities. It allows people to carefully consider its use in responding to violent crimes such as sexual abuse. Criminal justice approaches tend to sideline and re-traumatize victims, and punish offenders to the detriment of accountability. Alternatively, restorative justice centers on healing for victims, while holding offenders meaningfully accountable. Criminal justice responses tend to individualize the problem, and catch marginalized communities, such as ethnic minorities, within its net. Restorative justice recognizes that sexual abuse is a form of gender-based violence. Community-based practices are needed, sometimes in conjunction with, and sometimes to counteract, traditional criminal justice responses. This book describes impacts of sexual abuse, and explanations for sexual offending, demonstrating how restorative justice can create hope through trauma.

In *Colorizing Restorative Justice*, noted practitioners in restorative justice / practices offer accounts of their own experiences and critical analyses, as the book explores issues of race and marginalization within the field. The book illuminates how racism and colonization show up in the movement and includes thought-provoking questions to help readers fully process the articles.

Can community-building begin in a classroom? The authors of this book believe that by applying restorative justice at school, we can build a healthier and more just society. With practical applications and models. Can an overworked teacher possibly turn an unruly incident with students into an "opportunity for learning, growth, and community-building"? If restorative justice has been able to salvage lives within the world of criminal behavior, why shouldn't its principles be applied in school classrooms and cafeterias? And if our children learn restorative practices early and daily, won't we be building a healthier, more just society? Two educators answer yes, yes, and yes in this new addition to *The Little Books of Justice and Peacebuilding series*. Amstutz and Mullet offer applications and models. "Discipline that restores is a process to make things as right as possible." This Little Book shows how to get there.

Following the staggering events of September 11, 2001, the Center for Justice and Peacebuilding at Eastern Mennonite University was asked to help, along with Church World Service, to equip religious and civil leaders for dealing with traumatized communities. The staff and faculty proposed Strategies for Trauma Awareness and Resilience (STAR) programs. Now, STAR director, Carolyn Yoder, has shaped the strategies and learnings from those experiences into a book for all who have known terrorism and threatened security. A startlingly helpful approach. A title in *The Little Books of Justice and Peacebuilding Series*.

Much more than a response to harm, restorative justice nurtures relational, interconnected school cultures. The wisdom embedded within its principles and practices is being welcomed at a time when exclusionary discipline and zero tolerance policies are recognized as perpetuating student apathy, disproportionality, and the school-to-prison pipeline. Relying on the wisdom of early proponents of restorative justice, the daily experiences of educators, and the authors' extensive

experience as classroom teachers and researchers, this Little Book guides the growth of restorative justice in education (RJE) into the future. Incorporating activities, stories, and examples throughout the book, three major interconnected and equally important aspects of restorative justice in education are explained and applied: creating just and equitable learning environments; building and maintaining healthy relationships; healing harm and transforming conflict. The Little Book of Restorative Justice in Education is a reference that practitioners can turn to repeatedly for clarity and consistency as they implement restorative justice in educational settings.

"To love oneself is the beginning of a lifelong romance." Oscar Wilde When pursuing your dreams and a joyous, fulfilling life, self-care isn't just beneficial, it's essential. More than just a fad, self-care is a way to nurture the soul, feel secure in your own skin and restore yourself to optimum health, both mentally and physically. Despite this, self-care isn't always at the top of everyone's to-do list and often becomes an afterthought in our busy lives. The Little Book of Self-Care shows you how to take time for yourself, keep stress at bay and take control of your mental health. Through restorative tips, positive quotes and inspiring exercises, learn how to untangle your busy life, embrace your wellbeing and fall back in love with yourself.

This guide offers current and future student affairs practitioners a new conceptual framework for identity-conscious and intersectional supervision. Presenting an original and transformative model to address day-to-day challenges, this book gives practitioners a strategic approach to engage in self-work, identity exploration, relationship building, consciousness raising, trust development, and organizational change, ultimately helping them become more adept at supervising people from a range of backgrounds and experiences. Chapters include theoretical underpinnings, practical tips, case studies, and discussion questions to explore strategies in real-life contexts. Identity-Conscious Supervision in Student Affairs is a key tool for student affairs practitioners to effectively change systems of dominance and inequity on their campuses.

Restorative justice is an innovative approach to responding to crime and conflict that shifts the focus away from laws and punishment to instead consider the harm caused and what is needed to repair that harm and make things right. Interest in restorative justice is rapidly expanding, with new applications continuously emerging around the world. The restorative philosophy and conference process have shown great promise in providing a justice response that heals individuals and strengthens the community. Still, a few key questions remain unanswered. First, how is the personal and relational transformation apparent in the restorative justice process achieved? What can be done to safeguard and enhance that effectiveness? Second, can restorative justice satisfy the wider public's need for a reaffirmation of communal norms following a crime, particularly in comparison to the criminal trial? And finally, given its primary focus on making amends at an interpersonal level, does restorative justice routinely fail to address larger, structural injustices? This book engages with these three critical questions through an understanding of restorative justice as a ritual. It proffers three dominant ritual functions related to the performance of justice: the normative, the transformative, and the proleptic. Two justice rituals, namely, the criminal trial and the restorative justice conference, are examined through this framework in order to understand how each process fulfills, or fails to fulfill, the multifaceted human need for justice. The book will be of interest to students, academics, and practitioners working in the areas of Restorative Justice, Criminal Law, and Criminology.

Restorative justice is one of the most talked about developments in the field of crime and justice. Its advocates and practitioners argue that state punishment, society's customary response to crime, neither meets the needs of crime victims nor prevents reoffending. In its place, they suggest, should be restorative justice, in which families and communities of offenders encourage them to take responsibility for the consequences of their actions, express repentance and repair the harm they have done. First published in 2002, *Restorative Justice: Ideas, Values, Debates* is renowned worldwide as an accessible, balanced and invaluable analysis of the argument that restorative justice can provide an attractive alternative to traditional responses to crime. The second edition includes a new chapter identifying and analyzing fundamental shifts and developments in restorative justice thinking over the last decade. It suggests that the campaign for restorative justice has not only grown rapidly in the last decade, but has also changed in its focus and character. What started as a campaign to revolutionize criminal justice has evolved into a social movement that aspires to implant restorative values into the fabric of everyday life. This new edition explores the implications of this development for restorative justice's claim to provide a feasible and desirable alternative to mainstream thinking on matters of crime and justice. This book provides an essential introduction to the most fundamental and distinctive ideas of restorative justice and will appeal to students of criminology, law or related disciplines or researchers and professionals with an interest in crime and justice issues. In addition it extends the debate about the meaning of restorative justice – pros, cons and wider significance – hence it will also be of interest to those already familiar with the topic.

Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is helping restore prisoners' sense of humanity while holding them accountable for their actions. Toews, with years of experience in prison work, shows how these practices can change prison culture and society. Written for an incarcerated audience, and for all those who work with people in prison, this book also clearly outlines the experiences and needs of this under-represented part of our society. A title in *The Little Books of Justice and Peacebuilding Series*.

Restorative circles are an effective way of implementing restorative justice, through starting a conversation wider than just the victim and the offender. Proven to be an effective way of healing and building relationships, tackling bullying within schools and providing a sense of community, this book gives everything needed for a school to start implementing restorative circles. Accompanied by illustrations, interviews and case studies to show how to start using restorative circles, this practical guide is the perfect introduction for schools looking to improve their methods of conflict resolution.

This book aims to offer a theory of restorative justice in education and map pedagogical stances that support restorative, transformative justice discourse and practice.--

This book introduces Coming to the Table's approach to a continuously evolving set of purposeful theories, ideas, experiments, guidelines, and intentions, all dedicated to facilitating racial healing and transformation. People of color, relative to white people, fall on the negative side of virtually all measurable social indicators. The "living wound" is seen in the significant disparities in average household wealth, unemployment and poverty rates, infant mortality rates, access to healthcare and life expectancy, education, housing, and treatment within, and by, the criminal justice system. Coming to the Table (CTTT) was born in 2006 when two dozen descendants from both sides of the system of enslavement gathered together at Eastern Mennonite University (EMU), in collaboration with the Center for Justice & Peacebuilding (CJP). Stories were shared and friendships began. The participants began to envision a more connected and truthful world that would address the unresolved and persistent effects of the historic institution of slavery. This Little Book shares Coming to the Table's vision for the United States—a vision of a just and truthful society that acknowledges and seeks to heal from the racial wounds of the past. Readers will learn practical skills for better listening; discover tips for building authentic, accountable relationships; and will find specific and varied ideas for taking action. The table of contents includes: Chapter 1: Introduction Chapter 2: Trauma Awareness and Resilience Chapter 3: Restorative Justice Chapter 4: Uncovering History Chapter 5: Making Connections Chapter 6: Circles, Touchstones, and Values Chapter 7: Working Toward Healing Chapter 8: Taking Action Chapter 9: Liberation and Transformation And subject include Unresolved Trauma, Brown v. Board of Education, Lynching, Connecting with Your Own Story, Wht Healing Looks Like, Engage Your Community, and much more.

Everything you need to know about self-care—especially for Aquarius! Take Time for You, Aquarius! It's me time—powered by the zodiac! Welcome star-powered strength and cosmic relief into your life with The Little Book of Self-Care for Aquarius. While Aquarius may typically lead with the mind and not the heart, this book truly puts value in taking care of your whole self. Let the stars be your guide as you learn just how important astrology is to your self-care routine. Discover more about your sign and your ruling element, air, and then find the perfect set of self-care ideas and activities for you. From sipping cardamom coffee to listening to Mozart, you will find more than one hundred ways to heal your mind, body, and active spirit. It's stellar self-care especially for you, Aquarius!

Are victims of crime destined to have the rest of their lives shaped by the crimes they've experienced? ("What happened to the road map for living the rest of my life?" asks a woman whose mother was murdered.) Will victims of crime always be bystanders in the justice system? ("We're having a problem forgiving the judge and the system," says the father of a young man killed in prison.) Is it possible for anyone to transcend such a comprehensively destructive, identity altering occurrence? ("I thought, I'm going to run until I'm not angry anymore," expresses a woman who was assaulted.) Howard Zehr presents the portraits and the courageous stories of 39 victims of violent crime in *Transcending: Reflections of Crime Victims*. Many of these people were twice-wounded: once at the hands of an assailant; the second time by the courts, where there is no legal provision for a victim's participation. "My hope," says Zehr, "is that this book might hand down a rope to others who have experienced such tragedies and traumas, and that it might allow all who read it to live on the healing edge."

Here's a call to colleges and universities to consider implementing restorative practices on their campuses, ensuring fair treatment of students and staff while minimizing institutional liability, protecting the campus community, and boosting morale. From an associate dean of student affairs who has put these models to work on his campus. Restorative justice is a collaborative decision-making process that includes victims, offenders, and others who are seeking to hold offenders accountable by having them (a) accept and acknowledge responsibility for their offenses, (b) to the best of their ability, repair the harm they caused to victims and communities, and (c) work to reduce the risk of re-offense by building positive social ties to the community. David Karp writes in his introduction, "As a student affairs administrator, I have become deeply committed to the concept and practice of restorative justice. I have experienced how it can work given the very real pressures among campus conduct administrators to manage high case loads, ensure fair treatment, minimize institutional liability, protect the campus community, boost morale in a division with high turnover, and help students learn from their mistakes without creating insurmountable obstacles to their future successes." When conflicts become ingrained in communities, people lose hope. Dialogue is necessary but never sufficient, and often actions prove inadequate to produce substantial change. Even worse, chosen actions create more conflict because people have different lived experiences, priorities, and approaches to transformation. So what's the story? In *The Little Book of Transformative Community Conferencing*, David Anderson Hooker offers a hopeful, accessible approach to dialogue that: Integrates several practice approaches including restorative justice, peacebuilding, and arts Creates welcoming, non-divisive spaces for dialogue Names and maps complex conflicts, such as racial tensions, religious divisions, environmental issues, and community development as it narrates simple stories Builds relationships and foundations for trust needed to support long-term community transformation projects And results in the crafting of hopeful, future-oriented visions of community that can transform relationships, resource allocation, and structures in service of communities' preferred narratives. *The Little Book Transformative Community Conferencing* will prove valuable and timely to mediators, restorative justice practitioners, community organizers, as well as leaders of peacebuilding and change efforts. It presents an important, stand-alone process, an excellent addition to the study and practice of strategic peacebuilding, restorative justice, conflict transformation, trauma healing, and community organizing. This book recognizes the complexity of conflict, choosing long-term solutions over inadequate quick fixes. The Transformative Community Conferencing model emerges from the author's thirty years of practice in contexts as diverse as South Sudan; Mississippi; Greensboro, North Carolina; Oakland, California; and Nassau, Bahamas.

Little Book of Restorative Justice A Bestselling Book By One Of The Founders Of The Movement Good Books

This unique book is a clear and detailed introduction that analyses how restorative justice nurtures empathy, exploring key themes such as responsibility, shame, forgiveness and closure. The core notion of the book is that when a crime is committed, it separates people, creating a 'gap'. This can only be reduced or closed through information and insight about the other person, which have the potential to elicit empathy and compassion from both sides. The book explores this extraordinary journey from harm to healing using the structure of a timeline: from an offence, through the criminal justice process and into the heart of the restorative meeting. Using case studies, the book offers a fresh angle on a topic that is of growing interest both in the UK and internationally. It is ideal as a comprehensive introduction for those new to restorative justice and as a best practice guide for existing practitioners.

In our era of mass incarceration, gun violence, and Black Lives Matters, a handbook showing how racial justice and restorative justice can transform the African-American experience in America. This timely work will inform scholars and practitioners on the subjects of pervasive racial inequity and the healing offered by restorative justice practices. Addressing the intersectionality of race and the US criminal justice system, social activist Fania E. Davis explores how restorative justice has the capacity to disrupt patterns of mass incarceration through effective, equitable, and transformative approaches. Eager to break the still-pervasive, centuries-long cycles of racial prejudice and trauma in America, Davis unites the racial justice and restorative justice movements, aspiring to increase awareness of deep-seated problems as well as positive action toward change. Davis highlights real restorative justice initiatives that function from a racial justice perspective; these programs are utilized in schools, justice systems, and communities, intentionally seeking to ameliorate racial disparities and systemic inequities. Chapters include: Chapter 1: The Journey to Racial Justice and Restorative Justice Chapter 2: Ubuntu: The Indigenous Ethos of Restorative Justice Chapter 3: Integrating Racial Justice and Restorative Justice Chapter 4: Race, Restorative Justice, and Schools Chapter 5: Restorative Justice and Transforming Mass Incarceration Chapter 6: Toward a Racial Reckoning: Imagining a Truth Process for Police Violence Chapter 7: A Way Forward She looks at initiatives that strive to address the historical harms against African Americans throughout the nation. This newest addition the Justice and Peacebuilding series is a much needed and long overdue examination of the issue of race in America as well as a beacon of hope as we learn to work together to repair damage, change perspectives, and strive to do better.

The Little Book of Sleep is a beautifully colour-illustrated guide to achieving deep, natural, clean sleep. Sleep expert Dr Nerina Ramlakhan explains why a good night's sleep is essential in today's demanding, 24/7, technology-driven world, introduces us to the science of sleep and teaches us that the secret of good sleep is to get out of our head and back into our body. Using a unique

combination of Eastern and Western practices, including yoga, ayurveda and body-awareness techniques, and with an abundance of invaluable advice and techniques, Dr Nerina guides the reader on their personal journey back to sleep.

The acclaimed #1 "New York Times"-bestselling author presents a spellbinding tale of a mother's tragic loss and one man's last chance at gaining salvation. Once again, Picoult mesmerizes and entralls readers with this story of redemption, justice, and love. A Practitioner's Reference and Guide to Implement Restorative Justice on Campus Here's a call to colleges and universities to consider implementing restorative practices on their campuses, ensuring fair treatment of students and staff while minimizing institutional liability, protecting the campus community, and boosting morale, from an associate dean of student affairs who has put these models to work on his campus. Restorative justice is a collaborative decision-making process that includes victims, offenders, and others who are seeking to hold offenders accountable by having them (a) accept and acknowledge responsibility for their offenses, (b) to the best of their ability, repair the harm they caused to victims and communities, and (c) work to reduce the risk of re-offense by building positive social ties to the community. David Karp writes in his introduction, "As a student affairs administrator, I have become deeply committed to the concept and practice of restorative justice. I have experienced how it can work given the very real pressures among campus conduct administrators to manage high case loads, ensure fair treatment, minimize institutional liability, protect the campus community, boost morale in a division with high turnover, and help students learn from their mistakes without creating insurmountable obstacles to their future successes."

With over 80 guided practices to choose from, this book is the ideal guide to self-care for any occasion, whether you need to find calm, energy, inspiration or comfort. It's the perfect caring gift for yourself or for others. Discover the restorative wonders of daily rituals. A ritual is an act of self-care that's carried out mindfully, and with reverence: a gratitude ritual to relive the high points of your day; a ritual for self-expression to free unexpressed emotions; a candle ritual to focus your mind on peace. With over 80 guided practices to choose from, there is something in this book for every intention. Whether you want to reflect, to recharge your batteries, or rekindle your motivation, you will find the perfect ritual to refresh your mind, body and spirit.

"The purpose of this Little Book is to identify some characteristic features of the Bible's teaching on justice. "The Bible has had a profound impact on the development of Western culture. So exploring biblical perspectives on justice can help us appreciate some of the convictions and values that have helped shape Western political and judicial thought. "Christians also regard the Bible as a uniquely important source of guidance on matters of belief and practice. What the Bible has to say about justice, therefore -- both social justice and criminal justice -- ought to be of great significance for Christian thought and action today. "Yet coming to grips with biblical teaching on justice is by no means easy." Upfront, Marshall addresses the many complexities that surround "justice" in the Bible: the Bible seems to hold conflicting points of view; there is a huge amount of data to deal with; the world of the Bible and our present world are vastly different. Marshall's honest treatment of this subject is direct, yet almost lyrical in tone. He manages a thorny, multi-faceted subject clearly and ultimately singles out the broad areas of theological agreement among the Bible's writers. Highly stimulating. Highly inspirational.

For the first time, the four most popular restorative justice books in the Justice & Peacebuilding series—The Little Book of Restorative Justice: Revised and Updated, The Little Book of Victim Offender Conferencing, The Little Book of Family Group Conferences, and The Little Book of Circle Processes—are available in one affordable volume. Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal while holding criminals accountable for their actions. This is not a soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. Circle processes draw from the Native American tradition of gathering in a circle to solve problems as a community. Peacemaking circles are used in neighborhoods, in schools, in the workplace, and in social services to support victims of all kinds, resolve behavior problems, and create positive climates. Each book is written by a scholar at the forefront of these movements, making this important reading for classrooms, community leaders, and anyone involved with conflict resolution.

Over 150,000-copies sold! Author Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming our understanding of justice. Here Zehr proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In The Little Book of Restorative Justice, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. Topics include: Three pillars of restorative justice The "who" and the "how" are important The goals of restorative justice Core approaches often involve an encounter And much more! This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Victim offender dialogues have been developed as a way to hold offenders accountable to the person they have harmed and to give victims a voice about how to put things right. It is a way of acknowledging the importance of the relationship, of the connection which crime creates. Granted, the relationship is a negative one, but there is a relationship. Amstutz has been a practitioner and a teacher in the field for more than 20 years.
